To the Port of Seattle Commission:

We are concessions workers at SeaTac Airport. We urge you to pass a strong worker retention policy that equally applies to all concessions workers at the airport. We attended this public hearing because our job is what keeps our families afloat in this economic crisis. But not only is worker retention the right thing for us. It also gives the airport a stable workforce that will protect the public's valuable resources when concessions operators change. We expect you to do the right thing for us, our community, and the taxpayers of King County.

Sincerely,
