NOTICE

SEATTLE -- The Port of Seattle Century Agenda Committee will convene a Special Meeting from 9:00 to 11:00 a.m. on Tuesday, November 8, 2011, at Port of Seattle Headquarters, Commission Chambers, Pier 69, 2711 Alaskan Way, Seattle, Washington. The meeting will be audio and video recorded to be accessible during or after the meeting.

The meeting will feature a roundtable discussion on "Funding our Strategic Goals" Our panelists will engage in a robust discussion on how the Port will fund its strategic initiatives. The overarching Century Agenda goal is to add 100,000 jobs to the regional economy, so an important consideration we face is how to best steward public funds in support of that goal and its other strategic components?

This roundtable, the last in a series of nine, is the final stage of the Port's three-year strategic planning process called the Century Agenda. This stage will establish long-range strategic goals for the next quarter-century. As the year progresses, the Committee will synthesize goals that emerged from previous public roundtable discussions on big questions that drive the Port's direction in pursuit of its mission of economic development – generating jobs, minimizing our environmental footprint, anchoring urban industrial lands, and wisely stewarding the public's tax dollars.
