

#### START OF TRANSCRIPT

[00:00:30] Good morning. This is Commission Vice
[00:00:31] President Ryan Calkins convening the
[00:00:33] regular meeting of November 11, 2025.
[00:00:36] The time is 10:32am we're meeting in
[00:00:40] person today at the Port of Seattle
[00:00:41] Headquarters Building Commission
[00:00:42] Chambers and virtually on Microsoft
[00:00:44] Teams. Present with me today is
[00:00:47] Commissioner Felman,
[00:00:50] who is currently in the executive
[00:00:51] session room awaiting the opening of
[00:00:52] the public meeting. Commissioner
[00:00:54] Commissioner Cho will be joining us at
[00:00:56] 1045. Commission President Hasegawa
[00:00:59] and Commissioner Muhammad are
[00:01:00] currently absent and excused from the
[00:01:02] meeting today. With Commissioner Cho's
[00:01:04] arrival, we will open the executive
[00:01:07] session to
[00:01:11] to discuss two items regarding
[00:01:13] litigation or potential litigation
[00:01:15] legal risk per RCW 4230110 1I for
[00:01:21] approximately 60 minutes. We'll
[00:01:23] reconvene into public session at 12pm
[00:01:27] thank you. Good
[00:01:32] Good afternoon. This is Commission
[00:01:34] Vice President Ryan Calkins
[00:01:36] reconvening the regular meeting of
[00:01:37] November 11, 2025.
[00:01:40] The time is 12:13pm
[00:01:44] we're meeting in person today at the
[00:01:46] Port of Seattle Headquarters Building
[00:01:47] Commission Chambers and virtually on
[00:01:49] Microsoft Teams. Commission
[00:01:51] Commission President Hasegawa
[00:01:53] Hasegawa and Commissioner Muhammad are
[00:01:55] absent and excused from attendance
[00:01:57] today. Clerk
[00:01:58] Clerk Hart, can you please call the
[00:02:00] role of all commissioners in
[00:02:01] attendance? Yes. Thank you. Beginning
[00:02:03] with Commissioner Calkins here. Thank [00:02:06] you, Commissioner Cho. President thank
[00:02:08] you. Commissioner Fellman. Present.
[00:02:10] Thank you. We do have a quorum
[00:02:11] established. Okay, a few housekeeping [00:02:14] items before we begin. For everyone in
[00:02:14] items before we begin. For everyone in [00:02:15] the meeting room, please. Please turn
[00:02:17] your cell phones to silent. For anyone
[00:02:17] your cent priories to sherit. For anyone [00:02:19] participating on Microsoft Teams,
[00:02:21] please mute your speakers when not
[00:02:22] actively speaking or presenting.
[00:02:24] Please keep your cameras off unless
[00:02:24] Flease keep your carriers on unless
[00:02:27] or staff participating virtually and
[00:02:30] are actively addressing the
[00:02:31] Commission. Members
[00:02:32] Members of the public addressing the
[00:02:34] Commission during public comment may
[00:02:35] turn on their cameras when their name

[00:02:37] is called to speak, and we'll turn

	them back off again at the conclusion
	of their remarks. For anyone at the
	dais, please turn off computer
	speakers and silence your devices.
	Please also remember to address your
	request to speak through the chair and
	wait to speak until you have been
	recognized. You'll turn your
	microphones on and off as needed. All
	the items noted here will ensure a
	smoother meeting, and so thank you for
	doing those. All
	All votes today will be taken by the
	roll call method or by general
	consent, so it is clear for anyone
	participating virtually how votes are
	cast. Commissioners will say aye or
	nay when their name is called.
	We are meeting on the ancestral lands
	and waters of the Coast Salish people
	with whom we share a commitment to
	steward these natural resources for
	future generations. This meeting is
	being digitally recorded and may be
	viewed or heard at any time on the
	Port's website and may be rebroadcast
	by King County Television.
	Please stand and
	and join us for the Pledge of
	All right, the first item of husiness
	All right, the first item of business today is approval of the agenda. As a
	reminder, if a Commissioner wishes to
	make a general comment for or against
	an item on the consent agenda, it is
	not necessary to pull that item for
	separate discussion. Rather, a
	Commissioner may offer general
	supporting or opposing comments later
	in the meeting. Once we get to that
	part of the agenda, however,
	however, it is appropriate if a
	Commissioner wants to ask questions of
	staff or wishes to have a dialogue on
	a consent agenda item, to request the
	item be pulled for separate discussion
	at this time. Are there any items to
	be pulled from the consent agenda or
	any motions to rearrange the orders of
	the day? All
[00:04:27]	All right, Commissioners,
[00:04:28]	Commissioners, the question is now on
	approval of the agenda. Is there a
	motion to approve the agenda as
	presented? So moved.
	Second, is
	is there any objection to approval of
	the agenda as presented?
	Hearing none. The agenda is approved
	as presented. Next
	Next on our agenda is the Executive
	Director's Report PD Metric. You have the floor. Good

[00:05:00]	Good afternoon Commissioners. Thank
•	you Commission Vice President Calkins
	for the land acknowledgement earlier
	in today's meeting. Land
	acknowledgments are an important part
	of our ongoing equity efforts,
	especially meaningful this month as
[00:05:13]	November is Native American Heritage
[00:05:15]	Month. The
[00:05:16]	The Port recognizes that our work
[00:05:18]	takes place on the ancestral lands and
	waters of the Coast Salish peoples and
	we are deeply grateful for their
	enduring connection to this place and
	remain committed to the partnerships
	that that advance equity,
	environmental stewardship and economic
	opportunities for all communities.
	November also marks Veterans Day
[00:05:35]	
	a time to honor and thank those who
	served in the United States Armed
[00:05:39]	Forces. The Port of Seattle recognizes
[00:05:42]	the dedication, sacrifice and
[00:05:43]	leadership of veterans across our
[00:05:45]	organization and throughout our
[00:05:46]	community. We are grateful for their
	service and remain committed to
	supporting opportunities for veterans
	through our workforce, partnerships
	and programs. The
	The Port is proud to be an employer of
	choice for veterans. As a mission
	driven organization, we greatly value
	veterans contributions to our work and
	culture. We should all take pride that
	veterans, while
	while military veterans today make up
	just 6% of the US population, that
	they make up 16% of the workforce here
	at the Port. A diverse workforce,
	including a strong representation of veterans makes the Port a stronger and
	better organization. Special
	Special thanks to our Military
	Veterans at the Port MVP Employee
	Resource Group for annually hosting a
	celebration and recognition event for
	veterans. As a reminder, all Port
	employees are invited to celebrate the
	Veterans Day event on Wednesday at 9am
	at the AOB Conference center at SEA
	Commissioners Speaking of Service,
	We've been closely tracking developing
[00:06:46]	developments related to the government
	shutdown. While Congress prepares for
[00:06:50]	the necessary votes, our focus is how
	long it may take federal agencies to
	fully restore operations to pre
	shutdown conditions. I continue to
	express my gratitude with how well our
	airport has weathered this shutdown.
	While some flights were canceled due
[00.07.04]	Time some nighte were canceled ade

[00:07:05]	to the FAA restrictions beginning last
[00:07:07]	Friday, we continue to see safe and
[00:07:09]	reliable operations at our airport.
	This is an extraordinary testament to
	the professionalism and commitment of
	our federal partners. I've
	I've heard from local leaders that
	they also appreciate the support our
	staff has shown federal workers.
	I'm grateful that the Port has been
	•
	able to demonstrate its support
	through actions like our October 22nd
	resource fair, our daily food pantry
	stocked with donations from the port,
	airline and community members as well
	stocking the food pantry and the food
	bank distribution by Food Lifeline
	that served over 450 individuals last
	week. The airport will continue to
[00:07:46]	keep our Federal workers worker food
[00:07:48]	bank open until everything is resolved
[00:07:50]	and then donate any remaining
[00:07:52]	remaining food as applies to a local
[00:07:54]	food bank Commissioners
[00:07:57]	Commissioners earlier this year, the
	Port of Seattle filed suit to the
	Growth Management Hearings Board
	regarding a City of Seattle Land Use
	Code amendment to allow dense housing
	in the Stadium District industrial
[00:08:09]	
	On Monday, we learned that the Board
	ruled in the Port's favor, finding
	that the ordinance violated the State
	Environmental Policy act and the
	Growth Management act on several grounds including inadequate public
	participation, inconsistency with the
	City's Comprehensive Plan and
	violations of the city owned city's
	own land use code. The decision by the
	Board invalidates the ordinance. I
	wanted to acknowledge that many teams
	across the port, particularly our
	Maritime team, external Relations,
	legal and our partners at the
	Northwest Seaport alliance and
	stakeholders across our industries
	industries help assemble key facts for
	this case. We will continue to assess
[00:08:46]	the situation as we strive to protect
	our working waterfront and the jobs it
[00:08:51]	provides our region. The Port's
[00:08:53]	attorneys are reviewing the Board's
	order and evaluating next steps,
	though this will depend somewhat on
	whether the City elects to appeal the
	Board's recent order or elects to
	readopt the ordinance or similar
	legislation. Staying
	Staying at the local level, I'd be
	remiss if I didn't congratulate
	Commissioners Ryan Calkins, Toshiko
[00.00.10]	Commissioners regain Cardins, 1031110

[00:09:13] Hasegawa and Hamdi Mohammed on their [00:09:15] recent election outcome. [00:09:16] outcome. It [00:09:18] It is also a period of transition for [00:09:19] our region and with new officials in [00:09:21] many leadership roles in King County. [00:09:23] In cities adjacent to Port operations, [00:09:26] we look forward to connecting with our [00:09:27] region's newly elected or reelected [00:09:29] leaders to share the Port's vision for [00:09:31] the future and and to share our vision [00:09:33] for success on economic development, [00:09:35] equity and environmental [00:09:37] sustainability programs. [00:09:41] Things are continually happening here [00:09:42] at the Port. I'd like to briefly recap [00:09:44] a few port related events and [00:09:46] milestones since our last meeting. [00:09:49] We celebrated Immigrants Day with [00:09:50] Commissioner Hamdi Mohammed in our [00:09:52] voice Employee Resource Group. We [00:09:55] marked the Northwest Seaport Alliance [00:09:56] 10th anniversary. We welcome fans to [00:09:59] the K Pop Des Moines Hunters event at [00:10:01] Sea. Joined [00:10:02] Joined the City of Seattle in the [00:10:04] Cascade Bike Club for a ribbon cutting [00:10:05] for the new East Marginal Way Bike [00:10:08] Lane. Celebrated the graduation of the [00:10:10] third cohort of the Youth Maritime [00:10:12] Career Launch Program. Hosted Korean [00:10:16] dignitaries to sign a Memorandum of [00:10:18] understanding with the Port of [00:10:19] Seattle. Port of Tacoma and the [00:10:21] Northwest Seaport Alliance. Advancing [00:10:23] decarbonizing shipping routes marked a [00:10:26] major milestone in the International [00:10:28] Rivals Facility Gate Realignment [00:10:30] Project. And [00:10:31] And at the end of this week it's been [00:10:34] a busy couple of weeks here, we'll be [00:10:35] cutting the ribbon to reopen [00:10:36] Checkpoint six at Sea. [00:10:39] It's a race to the finish for many [00:10:41] things as we're drawing to the close [00:10:42] of 2025. Moving to today's Commission [00:10:45] meeting, I'd like to highlight a few [00:10:47] items on today's agenda. On the [00:10:49] consent agenda, I will highlight an [00:10:51] action upgrading a component of our [00:10:53] Central Mechanical plan, our annual [00:10:55] service annual [00:10:56] annual authorization [00:10:58] authorization of service agreements [00:11:00] with the Northwest Seaport alliance [00:11:01] and termination of a concession [00:11:03] agreement under New Business. [00:11:07] We've introduced the 2026 Budget Plan [00:11:09] of Finance, Stormwater Utility Rates [00:11:12] and our Salary and benefits Resolution [00:11:13] and I'll have more to say about those [00:11:15] items during our introduction. [00:11:17] Commissioners, this concludes my

[00:11:19]	report. Thank you. Thank
	Thank you, Executive Director Metruck
[00:11:24]	I understand that we do not have any
[00:11:25]	committee reports to share today, so
[00:11:27]	we will continue on our agenda to the
[00:11:29]	public comment portion of our meeting.
	The Port Commission welcomes public
	comment as an important part of the
	public process. Comments are received
	and considered by the Commission in
	its deliberations. Before
	Before we take public comment, let's
	review our rules for in person and
•	virtual public comment. Clerk Hart,
	can you please play the recorded
	rules? The
	The Port of Seattle Commission
	welcomes you to our meeting today. As
	noted, public comment is an important
	part of the public process and the
	Port of Seattle Commission thanks you
	for joining us. Before proceeding, we
	will overview the rules governing
	public comment. For your general
	information, each
	each speaker will have two minutes to
	speak unless otherwise revised by the
	Presiding Officer. For the purposes of
	meeting efficiency and and the speaker
	shall keep their remarks within the
	allotted time provided a timer will
	appear on the screen and a buzzer will
	sound at the end of the Speaker's
	comment period. The Commission accepts
	comments on items appearing on its
	agenda and items related to the
	conduct of port business. Presiding
	Officer will ask speakers to limit
	their comments to these topics. This
	rule applies to both introductory and
	concluding remarks. Disruptions of
	Commission public meetings are
	prohibited. General disruptions
	include, but are not limited to, the
	Speaking before being recognized by
	the Presiding Officer holding or
	placing banners and signs in the
[00:12:51	meeting room in a way that endangers
	others or obstructs the flow of people
	or view of others at the meeting
	Intentionally disrupting, disturbing,
	or otherwise impeding attendance or
	participation at a meeting Refusing to
[00:13:03	follow the direction of the Presiding
	Officer or security personnel
	Attempting to use the comment time for
	purposeful delay without conveying a
	discernible message Using the comment
	period to assist in a campaign for
	election of any person to any office
	or for the promotion of or opposition
	to any ballot proposition except when
	addressing action being taken by the

[00:13:25] Commission on a ballot proposition [00:13:26] appearing on its agenda Directing [00:13:29] public comments to the audience [00:13:31] Engaging in abusive or harassing [00:13:33] behavior, including, but not limited [00:13:35] to, derogatory remarks based on age, [00:13:37] race, color, national origin, [00:13:40] ancestry, religion, disability, [00:13:42] pregnancy, sex, gender, sexual [00:13:45] orientation, transgender status. [00:13:47] marital status or any other category [00:13:49] protected by law the use of obscene or [00:13:52] profane language and gestures, [00:13:54] assaults or other threatening behavior [00:13:56] and sexual misconduct or sexual [00:13:58] harassment for safety purposes. [00:14:01] Individuals are asked not to [00:14:03] physically approach Commissioners or [00:14:04] staff at the meeting table during the [00:14:06] meeting. Individuals [00:14:07] Individuals may provide written public [00:14:09] comment before or after the meeting [00:14:11] and in addition, speakers may offer [00:14:13] written materials to the Commission [00:14:15] Clerk for distribution during their [00:14:17] testimony to the Commission. A [00:14:19] detailed list of the public comment [00:14:21] rules is available through the [00:14:22] Commission Clerk. If a meeting is [00:14:24] disrupted by an individual in [00:14:26] attendance in the meeting room or by [00:14:28] an individual providing public comment [00:14:30] in person or virtually, the PORT will [00:14:32] impose progressive consequences that [00:14:35] that may result in exclusion from [00:14:36] future meetings. Written materials [00:14:39] provided to the Clerk will be included [00:14:40] in today's meeting record. The Clerk [00:14:42] has a list of those prepared to speak. [00:14:45] When your name is called, please come [00:14:47] to the testimony table or unmute [00:14:49] yourself. If joining virtually [00:14:51] repeat your name for the record and [00:14:53] state your topic related to an item on [00:14:55] the agenda or related to the conduct [00:14:57] of port business. For [00:14:59] For those joining virtually when you [00:15:01] have concluded your remarks, please [00:15:03] turn off your camera and mute your [00:15:05] microphone. Our [00:15:06] Our public comment period will now [00:15:08] commence. Thank you again for joining [00:15:10] us today. Clerk [00:15:12] Clerk Hart, can you please call our [00:15:14] first speaker? Yes, give me just a [00:15:16] moment to get the timer up here. [00:15:31] And our first speaker is Michelle [00:15:32] Diamarco. Michelle, [00:15:35] Michelle, just please go ahead and [00:15:36] repeat your name for the record and [00:15:37] your agenda item. So [00:15:40] So I'm Michelle Germarco. And I'm here [00:15:42] again to comment on the closure and

	evictions at Salmon Bay Marina where
	I've been a live aboard on my
	houseboat for 11 years.
[00:15:49]	And I'll just be reporting back here
	regularly with updates about the
	marina and my quest finding a slip for
[00:15:56]	my houseboat. Until I do,
[00:15:58]	if the Maritime Division leadership
[00:16:01]	can't be transparent and accountable
[00:16:02]	about what's happening at Salmon Bay
[00:16:04]	Marina, at least I can.
[00:16:06]	So this week there were no 50 foot
[00:16:08]	liveaboard slips available between the
[00:16:10]	locks and the cut. I paid my mortgage
[00:16:13]	at Salmon Bay Marina, pressure washed
	the boat, had some neighbors over for
	pasta and the wind storms were pretty
[00:16:19]	uneventful. Relocation
	Relocation assistance has finally been
[00:16:22]	extended to all liveaboards
	a few weeks before many of the
	neighbors are evicted. And initially I
	was excited about this, but
	but as soon as the offer was made, it
	seems every excuse is being made to go
	back on it, including this cruel
	assertion that renting an apartment on
	land is not a qualified relocation
	expense. We're not moving to
	apartments for fun or because we want
	to. We're doing it because the port is
	closing the marina on impossibly short
	notice. Our boats are now worthless
	and we don't want to sleep outside.
	It's being done out of desperation and
	out of great expense for a necessary
	relocation. The leadership at Maritime
	Division unfortunately still does not
	grasp the human impacts of their
	neglect of Salmon Bay.
	When it comes to safety, our humanity
	is top of mind for them. But when it
	comes to any meaningful form of help,
	we are but vessels to them. They can't
	seem to decide if we are people or if
	we are boats. Anyway,
	Anyway, that's where we stand. Thanks
	for listening. Thank
	Thank you Ms. Jamarco
	and our next. Yes, thank you. Our next
	speaker is Robert Pakelon.
	Robert, please go ahead and repeat
	your name for the record and your
	topic here today. Morning.
	Morning. My name is Robert Paquilan
	and I'm here to speak about the Salmon
	Bay Marina. I
[00:17:52]	
	I have taken a slip of one of your
	other facilities and I would still
	like to use your services to until I
	could actually find comparable

[00:18:04] mortgage with covered slip.

	My boat is a wood boat. It will be
	destroyed out in the open and
	and I can't afford to just flat out
	buy a canvas cover for it.
	Kind of basically doing it for the
	just having
[00:18:25]	having a basic human need to sleep.
	I work a lot. Like today I have to
	take time off of work. I don't have
	that kind of time. A lot of people do.
	And that's about pretty much All I
	have to say for that, I'm
	I'm locking down. After I leave here,
	I'm going to try to finish locking
	down on the
	the mortgage that you have available.
[00:18:51]	And I
[00:18:52]	I would still like to find covered
[00:18:54]	mortgage. That's
[00:18:57]	That's pretty much all I have.
[00:18:59]	Thank you, Mr. Barnes. Thank you.
	Next speaker, correct. Our next
	speaker is John Chaney.
	John, please go ahead and repeat your
	name for the record and your topic.
	Good morning, my name is John Chaney.
	I'm here to talk about the evictions
	itself. Salmon Bay Marina.
	I live in Salmon Bay Marina on a
	legally established floating on water
[00:19:29]	residence, historically
[00:19:32]	historically known as a houseboat and
[00:19:34]	my boat, Hadrian. It
[00:19:37]	It is affordable
[00:19:39]	affordable living for us. We are both
100 40 441	
[00:19:41]	
	pensioners and the kind of things that we have will have to
[00:19:45]	pensioners and the kind of things that we have will have to
[00:19:45] [00:19:49]	pensioners and the kind of things that we have will have to pay in order to be at another place
[00:19:45] [00:19:49] [00:19:52]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.
[00:19:45] [00:19:49] [00:19:52] [00:19:55]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us. And I don't get it. The port says, the
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us. And I don't get it. The port says, the port staff says there is no plan for
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:08]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:08] [00:20:10]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:08] [00:20:10] [00:20:12]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:08] [00:20:10] [00:20:12] [00:20:15]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:08] [00:20:10] [00:20:12] [00:20:15] [00:20:17]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance Maintenance activity for the port, for
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:08] [00:20:10] [00:20:12] [00:20:15] [00:20:17]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance Maintenance activity for the port, for the marina for a number of years. I
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:08] [00:20:10] [00:20:12] [00:20:15] [00:20:17]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance Maintenance activity for the port, for
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:08] [00:20:10] [00:20:12] [00:20:15] [00:20:17] [00:20:19] [00:20:22]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance Maintenance activity for the port, for the marina for a number of years. I
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:10] [00:20:12] [00:20:15] [00:20:17] [00:20:19] [00:20:22] [00:20:25]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance Maintenance activity for the port, for the marina for a number of years. I find this neglectful. I come from the business of historic preservation
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:10] [00:20:12] [00:20:15] [00:20:17] [00:20:19] [00:20:22] [00:20:25] [00:20:26]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance Maintenance activity for the port, for the marina for a number of years. I find this neglectful. I come from the business of historic preservation where we work with old things and make
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:10] [00:20:12] [00:20:15] [00:20:17] [00:20:19] [00:20:22] [00:20:25] [00:20:26] [00:20:29]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance Maintenance activity for the port, for the marina for a number of years. I find this neglectful. I come from the business of historic preservation where we work with old things and make them give them more life.
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:10] [00:20:12] [00:20:15] [00:20:17] [00:20:21] [00:20:22] [00:20:25] [00:20:26] [00:20:29] [00:20:31]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance Maintenance activity for the port, for the marina for a number of years. I find this neglectful. I come from the business of historic preservation where we work with old things and make them give them more life.
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:10] [00:20:12] [00:20:15] [00:20:17] [00:20:21] [00:20:22] [00:20:25] [00:20:26] [00:20:29] [00:20:33]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance Maintenance activity for the port, for the marina for a number of years. I find this neglectful. I come from the business of historic preservation where we work with old things and make them give them more life.  And in this case we we have a term for that. We call it
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:10] [00:20:12] [00:20:15] [00:20:17] [00:20:21] [00:20:25] [00:20:26] [00:20:29] [00:20:33] [00:20:35]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance Maintenance activity for the port, for the marina for a number of years. I find this neglectful. I come from the business of historic preservation where we work with old things and make them give them more life.  And in this case we we have a term for that. We call it demolition by neglect.
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:10] [00:20:12] [00:20:15] [00:20:17] [00:20:21] [00:20:25] [00:20:26] [00:20:29] [00:20:33] [00:20:33] [00:20:37]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance Maintenance activity for the port, for the marina for a number of years. I find this neglectful. I come from the business of historic preservation where we work with old things and make them give them more life.  And in this case we we have a term for that. We call it demolition by neglect.  And I believe that the port has in
[00:19:45] [00:19:49] [00:19:52] [00:19:55] [00:20:03] [00:20:05] [00:20:07] [00:20:10] [00:20:112] [00:20:15] [00:20:17] [00:20:19] [00:20:29] [00:20:26] [00:20:29] [00:20:31] [00:20:33] [00:20:33] [00:20:33] [00:20:33]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance Maintenance activity for the port, for the marina for a number of years. I find this neglectful. I come from the business of historic preservation where we work with old things and make them give them more life.  And in this case we we have a term for that. We call it demolition by neglect.  And I believe that the port has in fact done that. If you have a plan, I
[00:19:45] [00:19:49] [00:19:52] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:10] [00:20:112] [00:20:15] [00:20:17] [00:20:219] [00:20:22] [00:20:26] [00:20:26] [00:20:31] [00:20:33] [00:20:33] [00:20:33] [00:20:33] [00:20:33] [00:20:34]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance Maintenance activity for the port, for the marina for a number of years. I find this neglectful. I come from the business of historic preservation where we work with old things and make them give them more life.  And in this case we we have a term for that. We call it demolition by neglect.  And I believe that the port has in fact done that. If you have a plan, I guess that would be great if you had
[00:19:45] [00:19:49] [00:19:52] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:10] [00:20:112] [00:20:15] [00:20:17] [00:20:219] [00:20:22] [00:20:26] [00:20:26] [00:20:31] [00:20:33] [00:20:33] [00:20:37] [00:20:39] [00:20:44]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance Maintenance activity for the port, for the marina for a number of years. I find this neglectful. I come from the business of historic preservation where we work with old things and make them give them more life.  And in this case we we have a term for that. We call it demolition by neglect.  And I believe that the port has in fact done that. If you have a plan, I guess that would be great if you had told us it would be really nice if you
[00:19:45] [00:19:49] [00:19:52] [00:19:59] [00:20:03] [00:20:05] [00:20:07] [00:20:08] [00:20:10] [00:20:12] [00:20:15] [00:20:17] [00:20:19] [00:20:29] [00:20:26] [00:20:26] [00:20:31] [00:20:31] [00:20:33] [00:20:37] [00:20:39] [00:20:44] [00:20:44]	pensioners and the kind of things that we have will have to pay in order to be at another place is tremendous for us.  And I don't get it. The port says, the port staff says there is no plan for this property. No plan. Nothing in the budget next year for planning, nothing in the budget for capital improvements. We've seen no maintenance, significant maintenance activity. They replaced three boards on my dock this year. Maintenance Maintenance activity for the port, for the marina for a number of years. I find this neglectful. I come from the business of historic preservation where we work with old things and make them give them more life.  And in this case we we have a term for that. We call it demolition by neglect.  And I believe that the port has in fact done that. If you have a plan, I guess that would be great if you had

[00:20:54]	I went into the yard to protect my
	boat from your marina.
	Paid a lot of money for that. I went
	in on the 2nd of September, on the
	11th of September, was told I was
	going to be evicted and came back from
	the yard on the 22nd
	much poorer than I went into the yard
	for work that I would not have had to
	done at any. Had to have done at any
	other marina. So
	So we're hoping for better fairness.
	We really are. Thank
	Thank you. Thank you Mr. Cheney.
	Clerk Hart, our next speaker please.
	Thank you. Our final signed up speaker
	is John Von Viel.
	Apologies. Please go ahead and repeat
	your name for the record. Fondville is
	my last name. John Fondle, my full
	name. So
	So hello, my
	my name is John, as I just described.
	I have a few. Can I actually. Am I
	allowed to ask questions or is it just
	a comment? You're welcome to ask.
	Right, right. You can ask and. Okay,
	we'll make note. So this is my first
	time in front of you. I've been, I've
	been out of the country for the last five or six weeks. I,
[00:22:09]	
	I have a boat, it's wooden. It's been
	on in the same slip at Salmon Bay for
	28 years. And
	And I bought the boat about six years
[00:22:21]	
	And one of the main reasons I bought
	it was its location. I I live in Magnolia and Salmon Bay is
	,
	in Magnolia, and
	and it was covered.
	So once again, it's another wooden
	boat question issue on Salmon Bay
	Marina, which is covered, owned by the
	Port of Seattle. And
[00:22:44]	
	I've been going through my notes and
	my emails over the last five years.
	I have them all. And,
	And, you know, there were a couple
	emails from the port
	advising of high winds.
	Actually, one, the last one I looked
	at was In November of 2024, just about
	a year ago. There
	There is no discussion whatsoever
	about, you
	you know, danger.
	The, the question that, or actually
	the notification was there is a high
[00.23.10]	wind advisory from noaa, which is the

[00:23:21] national organization that

[00:23:23] that provides the weather.

#### Transcript of Regular Meeting on Nov 11, 2025 12:00pm Port of Seattle.

[00:23:27] The facts were what, what the weather [00:23:29] was. It was high winds, essentially. [00:23:31] And they said, tighten up your lines, [00:23:33] do what we're supposed to do as [00:23:34] mariners, take care of our boat, [00:23:36] because we have our ultimate [00:23:38] responsibility to do that. There [00:23:40] There is no discussion about safety. [00:23:43] And so I. [00:23:44] I, I'm not going to ask the question, [00:23:47] but I'm going to make it. The comment, [00:23:48] I guess, is that I, it's just frankly, [00:23:52] I'm 66 years old. I've, I'm retired [00:23:55] now, but [00:23:56] but I can tell you in my lifetime, in [00:23:59] my career of working, [00:24:01] I've never seen a [00:24:03] a situation like this before where we [00:24:06] talk about safety, [00:24:08] which is of the utmost paramount [00:24:11] importance for anyone, right? It is [00:24:13] the bottom line as [00:24:16] as the reason why the Port of Seattle [00:24:18] is closing Salmon Bay Marina yet. Can [00:24:22] you wrap up? Mr. Okay, so that's my [00:24:24] question is this seems very unusual [00:24:26] that we're being evicted on the basis [00:24:28] of safety when there has been no [00:24:30] discussion about safety ever in the [00:24:32] past. Thank you. Thanks for your [00:24:34] comments. All [00:24:36] All right. That concludes our signups [00:24:38] today. Is there anyone else present on [00:24:40] the team's call or present in the room [00:24:42] today who didn't sign up but who [00:24:44] wishes to address the Commission? [00:24:49] All right. At [00:24:50] At this time, I'll ask Clerk Hart to [00:24:52] give a brief synopsis of any written [00:24:55] comments we've received. Thank [00:25:00] Thank you. Mr. [00:25:03] Mr. Commission Vice President, Members [00:25:05] of the Commission, Executive Director [00:25:06] metric. We've received 37 written [00:25:09] comments from the meeting today. These [00:25:11] have all been distributed to you in [00:25:13] advance of the meeting and will become [00:25:14] a part of the meeting record and [00:25:16] and are summarized as follows, 36 form [00:25:19] letters were submitted for public [00:25:21] comment requesting liquefied natural [00:25:23] gas be removed from the Northwest [00:25:25] Ports clean air strategy. These were [00:25:27] submitted by Cynthia McKittrick, Tammy [00:25:30] English, Jess Tulip, Sherry Teague, [00:25:32] Nancy Hadigan, Angie Santiago, Natalie [00:25:36] OP Dibeck, Kathy [00:25:38] Kathy Lawhorn, [00:25:39] Lawhorn, Jess [00:25:41] Jess Wallach. Connor Bartol. AJ Cho. [00:25:44] Jesse Strasser, Jerry Strasser, Carrie [00:25:47] Creed, Diana Shaughnessy, Leah Eister,

	Morgan, Chelsea Zipporah Jarman,
	Michaela Heineck, Mick Deidler, Keegan
	Ross, Mars Cabot, Mariah Canton,
[00:26:05]	Taylor Owens, Mirinda Chipman,
[00:26:09]	Marin Plutt, Gavin Furlong, Kay
[00:26:11]	Norton, Julie Andrjewski, Vicki
	Stanek, Bri Long, Mary Harmon Herman.
	Mary Herman. Apologies. And George
	Slats. And then we did receive a
	separate submission, not in the form
	of a form letter, that was received
	from Delia Ward stating that liquefied
	natural gas isn't clean and asking
	that it be removed from the Northwest
	supports clean air strategy. And that
[00:26:34]	concludes the written comments we've
[00:26:35]	received today. Thank
[00:26:37]	Thank you, Clerk Hart. Hearing no
[00:26:39]	further testimony, we're going to move
	on in the agenda. Our next order of
	business is the consent agenda. Items
	on the consent agenda are considered
	routine and will be adopted by one
	motion. Items removed from the consent
	agenda will be considered separately
	immediately after adoption of the
	remaining consent agenda items.
	At this time, the chair will entertain
	a motion to approve the consent agenda
[00:27:03]	covering items 8A through 8G. So
[00:27:06]	moved. Second,
[00:27:08]	Second, the
[00:27:10]	the motion was made and seconded.
	Commissioners, please say aye or nay
	when your name is called for approval
	of the consent agenda,
	beginning with Commissioner Calkins.
	Aye. Thank you. Commissioner Cho. Aye.
	Thank you. Commissioner Pelleman. Aye.
	Thank you. Three ayes zero nays for
	this item. All right. And with that,
	the consent agenda motion passes.
	Okay. We
	We have three new business items,
	beginning with a public hearing. Clerk
[00:27:39]	Hart, can you please read the first
[00:27:40]	item into the record? And then we'll
[00:27:42]	have Executive Director Mattrick
[00:27:44]	introduce it. Yes. Thank you. This is
	agenda item 10A. It's a public hearing
	and introduction of resolution number
	3839, a resolution adopting the final
	budget of the Port of Seattle for the
	year 2026, making, determining and
	deciding the amount of taxes to be
	levied upon the current assessment
	roll, providing payment of bond
	redemptions and interest, cost of
	future capital improvements and
[UU:28:U9]	acquisitions, and for such general
	purposes allowed by law which the Port

[00:28:13]	deems necessary, and directing the
[00:28:15]	King County Council as to the specific
[00:28:17]	sums to be levied on all of the
[00:28:19]	assessed properties of the Port of
	Seattle district in the year 2026, we
	have a companion resolution number
	3840, a resolution specifying the
	dollar and percentage change in the
	regular property levy from the
	Previous year per RCW 8455.12,
	providing for an increase of the levy
	from \$88,389,944 to
	\$90,180,054.
	Commissioners, we are pleased to
	introduce the Port of Seattle's 2026
	budget and five year capital plan. As
	we often say, a budget is more than
	dollars and cents. It reflects our
	vision and our values. You will see
	both in this presentation. In the work
	ahead for 2026, our expense growth is
	projected to outpace revenue growth.
	Although this is not the first time,
	it is unusual and this is not
[00:29:14]	sustainable. This reality requires a
[00:29:17]	thoughtful look at how we manage costs
	and use our resources more
[00:29:21]	strategically. While we remain well
	positioned for 2026, supported by
[00:29:26]	record demand for our essential
	services, a strong mix of business
	lines and major capital investments,
	we must stay disciplined and
	deliberate in our approach for
	for 2026. Examples of this disciplined
	approach can be found in the inclusion
	of Significantly fewer new FTEs Full
	Time Equivalent positions than in
	recent years. This will help the Port
	of Seattle manage expense growth going
	forward. Our collective strength
	allows the Port to advance trade,
	travel, commerce and job creation in
	ways that expand economic opportunity
	and enhance quality of life across our
	region. The
	The key to our continued success lies
	in balancing transformative
	transformative investments with
	careful financial stewardship. The
	budget before you reflects that
	balance. It is important to note that
	this budget is achievable
	achievable because of strong market
	demand and sound management.
	However, we also recognize that these
	conditions can shift quickly. We will
	continue to monitor emerging risks,
	including policy changes, tariffs,
	federally mandated reduction of
	services, and potential reductions in
	federal investment that could affect
[00:30:37]	our operations and our industries.

	These conditions continue to inject
	some uncertainty into our forecasts as
	well. Finally,
	Finally, I want to acknowledge that
	the heart of our organization is our
	people. The Port's achievements are
	possible because of our skilled,
	dedicated and innovative employees.
	This budget continues our commitment
	to investing in them, ensuring that
	the Port remains a competitive and
	equitable employer that attracts and
	retains top talent. Thank you
	Commissioners for your engagement and
	thoughtful feedback throughout the
	development of the 2026 budget. I will
	cover the agenda next and then turn it
	over to our finance team to walk
	through the details. The team before
	you today presenting
	presenting is our new cfo, Chris Wimstadt, Michael Tong, Director of
	Corporate Budget Finance,
	and Elizabeth Morrison, Director of
	Corporate Finance of Finance and
	Budget. So with that, I'll turn I'll
	cover the first slide here,
	which is the turning next slide
	please, which
	which is just the outline we're going
	to go through today. We will talk
	about the changes after the
	preliminary budget document, the 2026
	operating budget highlights. Then we
	will also cover the commission
	priorities. We'll Talk about the
	2026-2030 capital plan. We'll go over
[00:31:56]	the 2026 sources and uses of funds.
[00:31:59]	We'll go over the 2026 budgeting with
	equity lens looking at it and then
	we'll go over the 2026 proposed tax
	levy and so some of your questions
	from the previous time we met and then
	we'll go over the remaining 2026
: :	budget schedule and with that I'll
	turn it over to Chris Wimshead. Great,
	thank you Executive Director Metruck
	Chris Wimsett, CFO and if we could go
	to the next slide. So
	So first I want to just summarize the changes that have occurred in the
	budget since the preliminary budget
	was published. All are within the
	aviation division. So first the
	operating expense
	increase of \$1.1 million that you see
	on the slide was associated with
	coverage needs, specifically security
	coverage related to
	the stack and TSA exit lane contract
	in the operating revenue side
	associated with that under
	aeronautical revenues, the first
1	· · · · · · · · · · · · · · · · · · ·

	bullet point There is the \$1.1 million
[00:32:55]	in cost recovery associated with the
[00:32:57]	\$1.1 million increase. In addition to
	that we have an \$853,000 increase to
	incorporate changes
	resulting from the new lease agreement
	with Amazon for building 156A and a
	net increase of \$0.4 million from
	other cost recovery adjustments under
	the airline use agreement.
[00:33:19]	To the next slide please.
[00:33:21]	There were no other changes since the
[00:33:23]	preliminary budget was published for
	any other divisions.
	And onto the next slide please.
	So this is the
	the operating budget highlights. This
	is an overview port wide. What we can
	see are operating revenues baseline
	there on the top line increasing 3.5%
[00:33:42]	from the 2025 budget into the 2026
[00:33:45]	budget. The increase of about \$39.3
[00:33:48]	million is driven entirely by
[00:33:49]	increases in aeronautical revenue.
	When we factor in leased interest
	income, which
	which accounting changes are resulting
	from the implementation of GASB 87
	we see total operating revenue plus
	interest income
[00:34:06]	income 5.7% change year over year from
	the 2025 budget
[00:34:12]	and operating
[00:34:12]	
[00:34:12] [00:34:14]	and operating operating expenses
[00:34:12] [00:34:14] [00:34:16]	and operating operating expenses expenses plus lease and
[00:34:12] [00:34:14] [00:34:16] [00:34:19]	and operating operating expenses expenses plus lease and subscription based IT arrangement.
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:35]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:35]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:35] [00:34:37] [00:34:40]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:37] [00:34:40] [00:34:43]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:37] [00:34:40] [00:34:43]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:37] [00:34:40] [00:34:43] [00:34:45]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:37] [00:34:40] [00:34:43] [00:34:43] [00:34:48]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:37] [00:34:40] [00:34:43] [00:34:45] [00:34:48] [00:34:50]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:37] [00:34:40] [00:34:43] [00:34:45] [00:34:50] [00:34:51]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon Commissioners and Director Metric.
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:37] [00:34:40] [00:34:43] [00:34:45] [00:34:50] [00:34:51] [00:34:54]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon Commissioners and Director Metric. Next slide please. So
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:37] [00:34:40] [00:34:43] [00:34:45] [00:34:50] [00:34:51] [00:34:54] [00:34:54] [00:34:54]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon Commissioners and Director Metric. Next slide please. So So I will go over some of the key
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:37] [00:34:40] [00:34:43] [00:34:45] [00:34:50] [00:34:51] [00:34:54] [00:34:54] [00:34:58] [00:35:00]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon Commissioners and Director Metric. Next slide please. So So I will go over some of the key budget driver on the payroll side we
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:37] [00:34:40] [00:34:43] [00:34:45] [00:34:50] [00:34:51] [00:34:54] [00:34:54] [00:34:58] [00:35:00] [00:35:03]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon Commissioners and Director Metric. Next slide please. So So I will go over some of the key budget driver on the payroll side we assume 4% average pay increase for
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:37] [00:34:40] [00:34:43] [00:34:49] [00:34:50] [00:34:51] [00:34:54] [00:34:54] [00:34:54] [00:34:58] [00:35:00] [00:35:06]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon Commissioners and Director Metric. Next slide please. So So I will go over some of the key budget driver on the payroll side we assume 4% average pay increase for long represent employees
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:37] [00:34:40] [00:34:43] [00:34:49] [00:34:50] [00:34:51] [00:34:54] [00:34:54] [00:34:54] [00:35:00] [00:35:00] [00:35:06] [00:35:09]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon Commissioners and Director Metric. Next slide please. So So I will go over some of the key budget driver on the payroll side we assume 4% average pay increase for long represent employees for represent employee
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:37] [00:34:40] [00:34:43] [00:34:45] [00:34:51] [00:34:54] [00:34:54] [00:35:00] [00:35:00] [00:35:06] [00:35:09] [00:35:11]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon Commissioners and Director Metric. Next slide please. So So I will go over some of the key budget driver on the payroll side we assume 4% average pay increase for long represent employee employee groups, the wages increase
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:24] [00:34:26] [00:34:26] [00:34:31] [00:34:37] [00:34:40] [00:34:43] [00:34:48] [00:34:54] [00:34:54] [00:34:54] [00:34:58] [00:35:00] [00:35:03] [00:35:06] [00:35:01] [00:35:11]	and operating operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon Commissioners and Director Metric. Next slide please. So So I will go over some of the key budget driver on the payroll side we assume 4% average pay increase for long represent employees for represent employee employee groups, the wages increase based on contract.
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:24] [00:34:26] [00:34:26] [00:34:31] [00:34:37] [00:34:40] [00:34:43] [00:34:48] [00:34:54] [00:34:54] [00:34:54] [00:34:58] [00:35:00] [00:35:03] [00:35:06] [00:35:01] [00:35:11]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon Commissioners and Director Metric. Next slide please. So So I will go over some of the key budget driver on the payroll side we assume 4% average pay increase for long represent employee employee groups, the wages increase
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:21] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:37] [00:34:40] [00:34:43] [00:34:48] [00:34:54] [00:34:54] [00:34:58] [00:35:00] [00:35:03] [00:35:06] [00:35:01] [00:35:11] [00:35:11]	and operating operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon Commissioners and Director Metric. Next slide please. So So I will go over some of the key budget driver on the payroll side we assume 4% average pay increase for long represent employees for represent employee employee groups, the wages increase based on contract.
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:24] [00:34:26] [00:34:26] [00:34:31] [00:34:31] [00:34:37] [00:34:40] [00:34:43] [00:34:48] [00:34:54] [00:34:54] [00:34:58] [00:35:00] [00:35:00] [00:35:03] [00:35:01] [00:35:11] [00:35:11]	and operating operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon Commissioners and Director Metric. Next slide please. So So I will go over some of the key budget driver on the payroll side we assume 4% average pay increase for long represent employees for represent employee employee groups, the wages increase based on contract. And then also we analyze all the new FTE that was approved
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:24] [00:34:24] [00:34:26] [00:34:29] [00:34:31] [00:34:37] [00:34:40] [00:34:40] [00:34:48] [00:34:48] [00:34:50] [00:34:51] [00:34:58] [00:35:00] [00:35:03] [00:35:03] [00:35:11] [00:35:11] [00:35:17] [00:35:19] [00:35:22]	and operating operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon Commissioners and Director Metric. Next slide please. So So I will go over some of the key budget driver on the payroll side we assume 4% average pay increase for long represent employee employee groups, the wages increase based on contract.  And then also we analyze all the new FTE that was approved last year in the 2025 budgets. A
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:24] [00:34:24] [00:34:26] [00:34:26] [00:34:37] [00:34:37] [00:34:40] [00:34:40] [00:34:48] [00:34:50] [00:34:51] [00:34:54] [00:34:58] [00:35:06] [00:35:06] [00:35:14] [00:35:17] [00:35:17] [00:35:22] [00:35:24]	and operating operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon Commissioners and Director Metric. Next slide please. So So I will go over some of the key budget driver on the payroll side we assume 4% average pay increase for long represent employee employee groups, the wages increase based on contract.  And then also we analyze all the new FTE that was approved last year in the 2025 budgets. A number of those we did not budget for
[00:34:12] [00:34:14] [00:34:16] [00:34:19] [00:34:24] [00:34:24] [00:34:26] [00:34:26] [00:34:37] [00:34:37] [00:34:40] [00:34:40] [00:34:48] [00:34:50] [00:34:51] [00:34:54] [00:34:58] [00:35:06] [00:35:06] [00:35:14] [00:35:17] [00:35:17] [00:35:22] [00:35:24]	and operating operating expenses expenses plus lease and subscription based IT arrangement. Interest expenses are up 9% year over year, but baseline expense increases are 7.8% which as executive Director metruck mentioned kind of underscores the outpacing increase of expenses versus revenues and net operating income is down 3.1% to 428 million from the 2025 budget.  So from there I'll turn it over to our budget director Michael Tong to go over some more details. Thank Thank you Chris. Good afternoon Commissioners and Director Metric. Next slide please. So So I will go over some of the key budget driver on the payroll side we assume 4% average pay increase for long represent employee employee groups, the wages increase based on contract.  And then also we analyze all the new FTE that was approved last year in the 2025 budgets. A number of those we did not budget for the full year. We start, you know,

[00:35:29]	in the middle of the year in 2025. So
	we have to analyze that
	also we have a net of 5 FTE in the mid
	year pool for this year as well.
	And then we added a 12 new FTE. A net
	of total FTE I should say because the
	total 17 but we eliminated 5 FTE so
	it's the net of 12 for 2026 budget.
	So and the other important notes here
	is the 4% vacancy rate
	we in the past we put in 5%
	for the past few years
	and this year we reduced it to 4% for
	a couple of reasons. First
	First is that we have newer new FTE
	this year compared to especially after
	the COVID We
	We have approved a number of FTE to
	catch up some of the hiring
	hiring fees during the COVID years.
	And then also the other reasons we
	also have less vacant position.
	So that's the main reason we reduced
	that. But also our
	our payroll budget for 2026 is about
	455 million.
	So 1% reductions translate to a little
	bit over 4.5 million increase. So just
	want to point that out on
	on the non payable side
	it's driven by a number of reason here
	versus growing operation need and also
	the increase in contractual
	contractual costs
	and the maintenance cost for some of
	our new facilities. And also
	additional resources
	for customer services and safety and
	security for our operation as well as
	some other operational
	operational needs. Next
	Next slide please. So
	So here you can see a couple of these
	new major non payable items. I won't
	go for all of them, but just want to
	point out a few of those Chris
	Chris mentioned about the TSA exit
	link staffing contract. Originally we
	budget 3.5 million and then we added
	1.1 million that Chris mentioned a
	little bit earlier in
	in 2025 budget. We did not budget for
	that because we did not know when we
	put the budget together at that time
[00:37:52]	
[00:37:56]	
	this year we expect to spend 3.5
[00:37:59]	
	in actual and
	and then given the growing rate we
	added another 1.1 million to 4.6
	million for 2026. And then the other
[ 20.00.07 ]	

[00:38:10] one second one is the expense

[00:38:12]	component related to the capital
	project. So we as you all know going
	have a growing capital needs and some
	of the costs we cannot capitalize
	there. So that translates to about 2.6
	million. The
	The third one is the five corridor
	safety program we have PDF 2 million
	and then the next one is the
	on site consultant for some of our
	tenant ongoing tenant project or some
	new tenant projects. So that's 2
	million there. So for the rest, unless
[00:38:44]	you have questions, I will get to the
	next slide please.
[00:38:51]	So here's some of the Commission 2026
[00:38:55]	budget priorities. I start with
	deviation based
	based on your order. 202413
	we added 1.55 million
[00:39:09]	for investment in SEA move and then
	25,000 for
	connector and off site check
	feasibility study. Next
	Next slide please. And
	And then for Maritime we budgeted 400k
	for propeller sighting
	sighting and then 30,000 for SEA lion
	mitigation and 12,000 for orca kiosks.
	Next slide please. For
	For EDD we put in 150
	for the hard
	hard to see here. Give me a second. So
	for the business and economic
	development plans and then 100k for
	shipbuilding readiness and then the
	100k for the sustainable aviation
	fields. Next
	Next slide please. And And then central services we have a
	number of items. I probably don't need
	to go for all those but I'll point out
	just a couple items. Main item here,
	the 601st item is 670,000 for the
	maritime workforce development
	investments there. And the second one
	is the Warmbas Valley community equity
	program a little bit over 600,000
	and then you can see the rest here.
	Next slide please.
	And then continue the 100k for
	maritime continue to fund the maritime
	high school and then 88k for the anti
	human traffic and then the corpus
	50,000. Next
	Next slide please. So
	So would like to give you a summary of
	the community program
	for 2026. We plan to invest 21.5
[00:41:02]	million into
	into 13 programs supporting the equity
[00 44 07]	and equitable economic opportunity

[00:41:10] developments for the region. Those

[00:41:13] included the diversity in contracting [00:41:16] 1B business and then also the [00:41:22] diversity, equity [00:41:24] equity inclusion and also in the [00:41:26] workforce development as well as the [00:41:28] in the South [00:41:30] South King and port community fund and [00:41:32] do Duwamish Valley community fund as [00:41:34] well as the economic development and [00:41:36] the tourism area. [00:41:38] Next slide please. So [00:41:41] So here's a slide to show you the [00:41:44] changes from 2023 budget to the 2026 [00:41:48] proposed budget. It [00:41:51] It shows a gradual increase for the [00:41:54] past few years as you can See here. [00:41:56] And you can see the detail [00:41:58] in the appendix for all the community [00:42:01] program list as well as the committee [00:42:04] program funded by tax levies. [00:42:06] Next slide please. And [00:42:09] And here you can see on the chart on [00:42:12] the left. So the [00:42:15] budget amount as well as the [00:42:17] percentage of each of the community [00:42:21] program funding by activities. And [00:42:24] then the detail on the left or the [00:42:26] list on the left show the key [00:42:29] complete program by budget dollar [00:42:31] amount. Next [00:42:34] Next slide please. And [00:42:37] And moving on to the five year CIP. [00:42:40] So we expect to spend [00:42:44] close to 933 million in 2026. And then [00:42:49] for the next five years we expect to [00:42:52] spend about 4.4 billion. [00:42:55] Those did not include the Seaport [00:42:58] alliance. Our [00:42:59] Our portion of the Seaport Alliance [00:43:00] CIP that you approved last week. [00:43:04] For our portion it [00:43:06] it was all expected to be 255 million [00:43:10] for the [00:43:12] the 2026 budget. [00:43:15] Excuse me, for the five year plan. [00:43:18] Next slide please. So [00:43:21] So we would like to give you a summary [00:43:23] of the 2026 sources and uses of fund [00:43:28] because part that's a requirement for [00:43:31] the statutory budget that we will file [00:43:33] with the county later on by the end of [00:43:35] this month. Next slide please. [00:43:39] We expect to spend about 4.4 million [00:43:43] or we still 4.4 million sources fund [00:43:46] for 2026. [00:43:49] As you can see here, the biggest [00:43:51] categories from [00:43:53] from the operating revenues almost a [00:43:55] little bit over 45%

[00:43:57] and then the bond proceed that we [00:44:00] expect to issue will be almost 36% [00:44:04] next year. And it's also worth to [00:44:07] point out that the tax levy again will

[00:44:09] subject to your review and approval [00:44:10] but based on the current assumption we [00:44:13] expect about 3 that [00:44:15] that will be about 3.7% of the total [00:44:17] sources in 2026. [00:44:19] Next slide please. As [00:44:22] As for the sources of fund, we expect [00:44:24] to spend about 2.2 [00:44:27] billion in [00:44:28] in 2026. The biggest piece is going to [00:44:32] the funded capital project. So it's a [00:44:34] little bit over 40%. [00:44:36] And then the operating expenses will [00:44:39] be about One third, about 22%. [00:44:42] And then the rest you can see is [00:44:44] related to the debt services [00:44:46] for interest payments and bond [00:44:49] redemptions. About what? The total is [00:44:51] about 21%. Next [00:44:53] Next slide please. So [00:44:56] So moving on to [00:44:59] budgeting with equity. Next slide [00:45:02] please. So [00:45:04] So here's a definition, you're [00:45:06] probably pretty familiar with that [00:45:08] we've been using the same definition [00:45:10] for the past few years. So just more [00:45:14] for you, you know, to make sure you [00:45:15] kind of when [00:45:17] when you look at that, before you look [00:45:19] at that number, just make sure you [00:45:20] know, we, you and the public [00:45:21] understand the definition. Overall we [00:45:23] are pretty conservative, pretty strict [00:45:26] in terms of, you know, how [00:45:27] how to Classify the equity spending. [00:45:31] Some of those in the gray area, we, we [00:45:33] try to exclude that even though my, [00:45:35] you know, someone may argue that [00:45:37] probably can qualify as well. So next [00:45:39] slide, please. So [00:45:41] So here you can see the equity [00:45:44] spending over the past few years since [00:45:46] 2019. The [00:45:48] The Blue Bar represents the actual [00:45:52] spending and the budget for the last [00:45:54] for 2025 and 2026 [00:45:58] overall, you can see, you know, from 9 [00:46:01] million in 2020, 2019, excuse me, to [00:46:05] over 24 million in 2026. [00:46:09] So it's pretty steadily increased over [00:46:12] the years. The [00:46:13] The reason for 2025, you can see a big [00:46:16] jump there is because we have several [00:46:18] pilot programs, especially at the [00:46:20] airport, where the trial care, the, [00:46:22] you know, the SEA [00:46:26] move and some of the other [00:46:29] pilot programs over there. So that's [00:46:31] part of the reason, you know, you see

[00:46:32] a big jump in 2025 budget. And then [00:46:35] the blue line, excuse me, the green [00:46:37] line you can see is the percentage as

	a percentage of total operating
	expenses. It's also going up over the
	year, generally speaking, from 2%,
	just 2% in 2019 to over 3% in the last
	couple years. So
	So next slide, please.
	So with that, I'll turn it over to
	our executive director, Magic and
	Elizabeth for the tax levy. Thank you.
	Thank you, Michael. Next slide,
	please. Now we're going to transition
	to the tax levy. And before I turn it
	over to Elizabeth, I just wanted to
	give our the bottom line up front
	regarding our recommendation for the
	tax levy. We do recommend that the
	2026 tax levy be increased based on
	the 75% of the maximum that we have,
	and that would recommend a 2% increase
	for 2026. Now, based on the feedback
	from the commissioners and further
	discussions with them in 2026, we will
	develop and analyze new levy scenarios for the commission to consideration.
	You'll see some today, some calculations on the 25 budget, but we
	will really aim towards that budget
	retreat in 2026,
	looking at a longer term and looking
	at that assessment and prioritization
	of additional needs, other funding
	opportunities for our budget,
	appropriate communication with
	stakeholders at that time, taxpayers,
	rating agencies and investors, and
	incorporate a broader context of
	looking at port resilience. When we
	come back to you in 20, when we start
	that budget planning process for 27
[00:48:11]	and 26. But again, Elizabeth's going
[00:48:13]	to walk through and I think we're
[00:48:15]	going to look at provide some of that
[00:48:16]	further analysis that we, that we
	those requested in the feedback that
[00:48:22]	we received from the commissioners at
	the last commission meeting. With
	that, I'll turn it over to Elizabeth
	Morrison. Elizabeth, thank You. Good
	afternoon. The
	The last time we met on October 28, we
	were short on time. So I appreciate
	this opportunity to come back and
	continue this conversation on the tax
	levy. It's a very important decision
	that you all make each year.
	Next slide, please. We'll
	We'll start with this graph. You've seen this before, but we didn't spend
	•
	much time on it at the last meeting.  And seeing where we've been can help
	inform where
	where we're going. We begin the graph
	in 1990 because that's the year that
[00.43.00]	in 1000 because mars me year mar

[00:49:03] the legislature allowed taxing
[00:49:05] authorities to tax below their maximum
[00:49:09] authority and still retain the ability
[00:49:13] to in the future tax up to the
[00:49:15] maximum, commonly known as banked
[00:49:17] capacity. And so the port has since
[00:49:21] then always done that, always been
[00:49:23] below the maximum. And in fact, in the
[00:49:26] 1990s there was
[00:49:28] anti tax sentiment among
[00:49:31] the taxpayers
[00:49:33] taxpayers in King county.
[00:49:35] And there was an effort on the part of
[00:49:37] the commission to try and have the
[00:49:38] seaport be self sustainable and not
[00:49:42] need the tax levy.
[00:49:44] In 2001 we had several changes. One
[00:49:49] was the Tim Eyman initiative that
[00:49:51] reduced the levy limit to 1%. It had
[00:49:56] been 6%. And so the maximum levy no
[00:49:59] grows at 1% plus new construction
[00:50:02] averaging about 2% instead of the
[00:50:05] prior 6% growth. The other two big
[00:50:08] events were the attacks of 9 11, which
[00:50:12] saw depressed
[00:50:14] air traffic for a few years. We saw a
[00:50:18] decline in employments and they kind
[00:50:20] of stayed low for a few years. And we
[00:50:24] had the dot com bust recession. The
[00:50:26] combination of those two things meant
[00:50:29] that the port had some financial
[00:50:32] challenges. And so the commission
[00:50:34] raised the levy in 2003 by 46%
[00:50:39] to address those financial challenges.
[00:50:42] So that was a
[00:50:44] a time when we tapped into that bank
[00:50:47] capacity for that financial
[00:50:50] resilience. We
[00:50:51] We had another bump up
[00:50:54] during the Great Recession in 2007 an
[00:50:57] 2008. We saw 20% cumulative increas
[00:51:02] over those two years. And then we
[00:51:05] started keeping the levy sort of flat.
[00:51:07] While we regained some of that banked
[00:51:10] capacity in 2019,
[00:51:13] we began to take modest increases to
[00:51:17] try and retain the buying power.
[00:51:21] So over this period of time,
[00:51:24] the relative difference between the
[00:51:27] actual levy and the maximum levy has
[00:51:29] varied quite a bit. As you can see, it
[00:51:31] has averaged 75%. And so that's when
[00:51:35] we have come up with the 75% that we
[00:51:38] have been using for the past several
[00:51:40] years. If
[00:51:41] If we had just kept up with inflation
[00:51:44] inflation, the port would have levied
[00:51:47] \$80 million less in total over this
[00:51:51] time period. So having this
[00:51:53] flexibility allowed the port to levy
[00:51:55] 80 million more than if we had just
[00:51:57] kept up with inflation.
[00:52:00] Next slide please. So

	So this provides some detail of recent
	history. Beginning
	Beginning in 2019, trying to preserve
	some buying power. We did that for
	several years. It was also a time
[00:52:15]	where we were anticipating some
[00:52:17]	significant seaport
[00:52:18]	seaport investments. We had considered
[00:52:22]	a cruise terminal at Terminal 46. We
[00:52:25]	also had the T91 uplands, we had the
[00:52:27]	T117 habitat
[00:52:29]	habitat restoration, the Maritime
[00:52:33]	Innovation Center.
[00:52:35]	So a number of big innovations
[00:52:36]	investments that we wanted to be able
	to fund. But
	But because maximum only grows at 2%,
	the 3% wasn't sustainable forever. And
	so we shifted to the 2% growth based
	on 75% of maximum. And that's where we
	have been for a number of years.
	This approach has been effective in
	trying to strike that balance between
	doing well and doing good because it
	does give us a regular increase in the
	tax levy each year while still
	retaining financial resilience. It is
	not the only approach, it's the one we
	have used and it's been effective. But
	there are other approaches we can
	certainly consider. So
	So next slide please.
	So based on the conversation on the
	28th, we came up with four possible
	scenarios. The one in bold is the
	current recommendation that keeps the
	current approach. We We also looked at possibly just
	leaving the levy flat, which we've
	done before and that
	keeps more money in taxpayers pockets
	but also means less
	revenues for the port and for the
	things that we want to do.
	The other two scenarios increase the
	levy one by the current rate of
	inflation and I'll Note that that 4.4%
	rate has since been adjusted down to
	closer to 4%. This is based on King
	county forecasted CPI for 2026. The
	other is if we wanted to catch up to
	that red inflation adjusted line from
	the prior slide, that would be almost
	an 11% increase in the tax levy.
	Next slide please. So
	So each of these scenarios has pros
	and cons, but fundamentally
	the higher the tax levy, the more
	money that the port has to do what we
	might need to do and the less money
	that taxpayers retain.
	The two increased scenarios in

[00:55:02] particular also have the downside of

	changing the approach
	without the in depth analysis
	that staff would like to provide you,
	where we take a holistic approach to
	that balance between what we want to
	do and the financial resilience and
	allowing our CFO to
[00:55:28]	give his insights into
[00:55:31]	those scenarios and recommendations.
[00:55:38]	Next slide please. So
[00:55:43]	So as Steve mentioned,
[00:55:47]	the Recommendation is twofold. First
[00:55:51]	to stay the course for 2026, keep with
[00:55:54]	this with the approach that we have
[00:55:56]	used successfully for several years
[00:55:59]	and second to step back and do an in
	depth look at other Alternatives that
	can help us balance what we need to
	balance. So
	So the reasons why the 2026
	recommendation works is, first of all,
	it does fully fund the environmental
	liabilities that we have now. It
	doesn't necessarily fund all of the
	projects that might be
	on a list of that
	that the port might want to do. And I
	know Commissioner Calkins asked about
	are there deferred maintenance
	projects. So we'd like to take a more
	thoughtful look at some of those
	projects. We know this building, our
	headquarter building, is in need of
	some repairs, but we'd like to take a
	closer look at that and whether that's
	something we'd want to recommend
	moving forward. The
	The other thing is we've been hearing
	that taxpayers are a little fatigued
	with taxes and people are stressed
	financially these days with a lot of
	uncertainty regarding employment and
	snap benefits and
	whole host of things.
	So this might not be the year to take
	an increase more than the 2%.
	The recommendation balances the
	funding sources while supporting our
	strong bond rating. And I know
	Commissioner Cho has asked about
	what does that really mean? You know,
	can we quantify that? So we did look
[00:57:30]	
	if we got a downgrade, what that would
	mean. And it depends in part on how much of a downgrade. And the credit
	markets, you know, when credit spreads
	are narrow, there's not so much of a
	penalty if you're downgraded. When
	credit, credit spreads are wide,
	there's more of a penalty. So we
	estimate somewhere between 1 to 5
[00:57:54]	million a

[00:57:55]	a year in additional interest expense
[00:57:58]	on our revenue bonds
[00:58:00]	if we, if we were downgraded. Now, I
[00:58:03]	do feel optimistic that if we are
[00:58:06]	taking a deliberate approach and
	coming up with a different approach
[00:58:12]	
	a holistic look at financial
	resilience as well as our needs and
	have good justification for changing
	our approach that we will not be
	downgraded. We want to be able to
	communicate clearly with
	our investors why and what we're
	doing. And
	And then I would be optimistic we
	would not see an impact. But it does
	require the kind of thoughtful
	approach that the port has taken in
	the past with financial management.
	The other reason to not change for
	2026 is that we're currently
	forecasting a 24 million dollar
	surplus in the levy at the end of the
	year. Now
	Now we do over the long term expect
	that that gets spent. But if we do
	have things that, that we decide we
	really want to do in 26, we can use
	that 24 million and then take a larger
	increase in 27 if we need to. So it's
	not like this action,
	this year will mean that we can't do
	anything else that's not on our
	current list. And
	And then lastly, the fundamental
	problem is that I'm an initiative that
	capped the increase at 1% when we were
	in the Great Recession and inflation,
	inflation was virtually zero. It was
	fine. But now we've seen years in
	2022, inflation was 9% in King county
	and that is a challenge when the levy
	increase is capped at 1% plus new
	construction. Next
	Next slide please. So
	So the second part of our
	recommendation is that we come back to
	you next year with more thoughtful
	analysis. Crisis. We've
	We've talked about a resource
	conscious approach to building capital
	capacity that includes looking at our
	operating expense growth, looking at
	new revenue opportunities and looking
	at managing the capital program
	with clear priorities and value
	engineering to some of our projects.
	We'll continue to monitor the needs
	for environmental remediation as well
	as for for capital and
	and we'll develop scenarios to bring
[01:00:30]	to you for consideration.

[01:00:34]	So we'll evaluate this within the
	broader context because as we
	discussed at the last meeting,
	the tax levy is not only a source of
	cash, it's also a source of support
	for the port's revenue bonds, which
[01:00:49]	are a much bigger share of of our
[01:00:51]	funding sources. All
[01:00:57]	All right, turn it back to Chris.
	Great, thank you, Elizabeth.
	So here on the last slide of the
	presentation, this just summarizes the
	remaining 2026 budget schedule. So
	ideally we'll be back a week from
	today for the adoption of the 2026
	budget in time to file the statutory
	budget with the the county here by the
	end of this month, November 26, and
[01:01:21]	release of the final document in early
[01:01:24]	December, specifically December 5th of
[01:01:27]	2025. All
	All right, thank you for the
	presentation and welcome, Chris. Grea
	first presentation. Thank
	Thank you, Elizabeth. Thank you,
	Michael. Going
	Going to turn it over to my fellow
	commissioners with any questions or
	comments. Yeah. Elizabeth, I
	appreciate your presentation on the
	tax levy and I know you've, you and I
	have gone back and forth a lot about
	this, but one question that I don't
	think I've ever asked is what is
	actually our book capacity right now,
	our bank capacity? 30 million. 30
	million. Okay, so we can
	raise the levy from what was 88, I
	think it was like 88 million to
	128 million. If we were to make that
[01:02:07]	
[01:02:08]	Not this time around, but yes, the
[01:02:10]	maximum levy for next year is about
[01:02:12]	120 million. So the levy could be
[01:02:14]	raised to that amount. Okay, got it.
	And then you said something earlier in
	your presentation about us having
	drawn \$80 million more because we
	didn't max out on the levy. I wasn't
	sure what you meant by that. Oh, it's
	because we didn't keep up with
	inflation or we actually levied more
	than inflation. If we could go Back to
	Slide 25, please.
	So the green dotted line is the
	inflation adjusted levy. If in 1990
	when bank capacity was introduced, if
	we had just decided to keep up with
	inflation every year, we would have
	followed that dotted green line
	and that would have represented
	\$80 million less
[01:03:03]	less than what the port actually

	[01:	:03:06]	collected during this period.
	[01:	:03:09]	So your statement is benched.
ı	[01:	:03:11]	Benchmarked based off the inflation
i	[01:	:03:121	rate, not the rate that we actually.
			The maximum allowable. Correct. Got
			it. Okay. Thank you for that
			clarification. I look forward to
			seeing your analysis on the lock slavy
			next year. Commissioner
			Commissioner Fell, thank
			thank you once again and appreciate
	[01:	:03:30]	the further detail and certainly
	[01:	:03:32]	understand the
ı	[01:	:03:34]	the value of waiting for you to do
ĺ	01:	03:36]	further analysis based on what you've
			been hearing for I think the past
			couple of years of our interested to
			know and you know, obviously
			people often ask, you know, why we
			have a levy at all and why aren't we
	_	-	paying the public rather than vice
	-	-	versa. And one of two things that
			I think as you mentioned before, that
	[01:	:03:59]	while the Levy is like 3.7% of our
	[01:	:04:03]	budget, the
	[01:	:04:06]	revenue bonds is 35.8. Right.
ı	[01:	:04:10]	And the relationship of one to the
ĺ	01:	04:13]	other is I think a significant
i	[01:	:04:15]	connection. That or
			or a bond rating overall is a
			significant thing that I don't know
			that the
ĺ	[01:	:04:22]	the public can fully appreciate. And I
İ	[01: [01:	:04:22] :04:23]	the public can fully appreciate. And I think we should understand, help then
	[01: [01: [01:	:04:22] :04:23] :04:26]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And
	[01: [01: [01: [01:	:04:22] :04:23] :04:26] :04:29]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise
	[01: [01: [01: [01:	:04:22] :04:23] :04:26] :04:29] :04:31]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And
	[01: [01: [01: [01: [01:	:04:22] :04:23] :04:26] :04:29] :04:31]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we
	[01: [01: [01: [01: [01: [01:	:04:22] :04:23] :04:26] :04:29] :04:31] :04:33]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to
	[01: [01: [01: [01: [01: [01:	:04:22] :04:23] :04:26] :04:29] :04:31] :04:33] :04:36] :04:37]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the
	[01: [01: [01: [01: [01: [01:	:04:22] :04:23] :04:26] :04:29] :04:31] :04:33] :04:36] :04:37]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to
	[01: [01: [01: [01: [01: [01: [01:	:04:22] :04:23] :04:26] :04:29] :04:31] :04:33] :04:36] :04:37]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the
	[01: [01: [01: [01: [01: [01: [01:	:04:22] :04:23] :04:26] :04:29] :04:31] :04:33] :04:36] :04:37] :04:39] :04:42]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie
	[01: [01: [01: [01: [01: [01: [01: [01:	:04:22] :04:23] :04:26] :04:29] :04:31] :04:33] :04:36] :04:37] :04:39] :04:42] :04:43]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I
	[01: [01: [01: [01: [01: [01: [01: [01:	:04:22] :04:23] :04:26] :04:29] :04:31] :04:33] :04:36] :04:37] :04:39] :04:42] :04:43]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the
	[01: [01: [01: [01: [01: [01: [01: [01:	:04:22] :04:23] :04:26] :04:29] :04:31] :04:33] :04:36] :04:37] :04:39] :04:42] :04:43] :04:45] :04:47]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:26] 04:31] 04:33] 04:36] 04:37] 04:39] 04:42] 04:43] 04:45] 04:45]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know,
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:26] 04:31] 04:33] 04:36] 04:37] 04:42] 04:42] 04:43] 04:45] 04:45] 04:50] 04:52]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:29] 04:31] 04:33] 04:36] 04:37] 04:39] 04:42] 04:43] 04:45] 04:45] 04:50]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:29] 04:31] 04:33] 04:36] 04:37] 04:42] 04:43] 04:45] 04:45] 04:50] 04:56]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of the price of housing and stuff like
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:29] 04:31] 04:33] 04:36] 04:37] 04:42] 04:43] 04:45] 04:45] 04:50] 04:52] 04:56]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of the price of housing and stuff like that. Right. The average
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:29] 04:31] 04:33] 04:36] 04:37] 04:42] 04:43] 04:45] 04:45] 04:50] 04:52] 04:56] 04:56]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of the price of housing and stuff like that. Right. The average average taxpayer. But the
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:29] 04:31] 04:33] 04:36] 04:37] 04:42] 04:43] 04:45] 04:50] 04:50] 04:52] 04:56] 04:56] 04:57]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of the price of housing and stuff like that. Right. The average average taxpayer. But the whole rationale for this I think is
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:29] 04:31] 04:36] 04:37] 04:39] 04:42] 04:43] 04:45] 04:50] 04:52] 04:56] 04:56] 04:57] 04:59] 05:02]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of the price of housing and stuff like that. Right. The average average taxpayer. But the whole rationale for this I think is something that we could do a better
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:29] 04:31] 04:36] 04:37] 04:39] 04:42] 04:43] 04:45] 04:50] 04:52] 04:56] 04:56] 04:57] 04:59] 05:02]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of the price of housing and stuff like that. Right. The average average taxpayer. But the whole rationale for this I think is
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:29] 04:31] 04:36] 04:36] 04:37] 04:42] 04:43] 04:45] 04:50] 04:56] 04:56] 04:57] 04:59] 05:02]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of the price of housing and stuff like that. Right. The average average taxpayer. But the whole rationale for this I think is something that we could do a better
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:31] 04:33] 04:36] 04:37] 04:39] 04:42] 04:45] 04:45] 04:50] 04:55] 04:56] 04:56] 04:57] 04:50] 05:06] 05:07]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of the price of housing and stuff like that. Right. The average average taxpayer. But the whole rationale for this I think is something that we could do a better job of helping the public appreciate that. So
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:31] 04:33] 04:36] 04:37] 04:39] 04:42] 04:45] 04:45] 04:50] 04:55] 04:56] 04:56] 04:57] 04:50] 05:06] 05:07]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of the price of housing and stuff like that. Right. The average average taxpayer. But the whole rationale for this I think is something that we could do a better job of helping the public appreciate that. So
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:29] 04:31] 04:36] 04:37] 04:39] 04:42] 04:45] 04:45] 04:50] 04:52] 04:55] 04:56] 04:56] 05:02] 05:04] 05:05]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of the price of housing and stuff like that. Right. The average average taxpayer. But the whole rationale for this I think is something that we could do a better job of helping the public appreciate that. So
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:29] 04:31] 04:36] 04:37] 04:39] 04:42] 04:43] 04:45] 04:50] 04:52] 04:56] 04:56] 05:06] 05:07] 05:08]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of the price of housing and stuff like that. Right. The average average taxpayer. But the whole rationale for this I think is something that we could do a better job of helping the public appreciate that. So So I appreciate that opportunity as part of your further analysis to help explain that. The
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:29] 04:31] 04:36] 04:37] 04:39] 04:42] 04:43] 04:45] 04:50] 04:50] 04:52] 04:56] 04:57] 06:50] 05:06] 05:07] 05:08]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of the price of housing and stuff like that. Right. The average average taxpayer. But the whole rationale for this I think is something that we could do a better job of helping the public appreciate that. So So I appreciate that opportunity as part of your further analysis to help explain that. The
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:29] 04:31] 04:36] 04:37] 04:39] 04:42] 04:43] 04:45] 04:50] 04:50] 04:52] 04:56] 05:06] 05:05] 05:05] 05:05]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of the price of housing and stuff like that. Right. The average average taxpayer. But the whole rationale for this I think is something that we could do a better job of helping the public appreciate that. So So I appreciate that opportunity as part of your further analysis to help explain that. The The other thing in terms of helping explain to the public is my favorite
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:29] 04:31] 04:36] 04:36] 04:37] 04:39] 04:42] 04:43] 04:45] 04:50] 04:52] 04:56] 04:57] 04:59] 05:06] 05:07] 05:08] 05:12]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of the price of housing and stuff like that. Right. The average average taxpayer. But the whole rationale for this I think is something that we could do a better job of helping the public appreciate that. So So I appreciate that opportunity as part of your further analysis to help explain that. The The other thing in terms of helping explain to the public is my favorite subject is the budget in brief and I
	[01: [01: [01: [01: [01: [01: [01: [01:	04:22] 04:23] 04:26] 04:29] 04:31] 04:36] 04:36] 04:37] 04:39] 04:42] 04:43] 04:45] 04:50] 04:50] 04:52] 04:56] 04:57] 05:06] 05:07] 05:08] 05:12] 05:16] 05:20]	the public can fully appreciate. And I think we should understand, help then understand the leveraging of that. And ultimately we're not here to raise money, we're here to raise jobs. And so that connectivity also I think we can do a better job of explaining to the public and if we were to raise the levy, you know, it's kind of hard to directly tie tie that to number of jobs. But I think the the why is important and why we're sitting here considering, you know, increasing the actual rate on the public right now is zero because of the price of housing and stuff like that. Right. The average average taxpayer. But the whole rationale for this I think is something that we could do a better job of helping the public appreciate that. So So I appreciate that opportunity as part of your further analysis to help explain that. The The other thing in terms of helping explain to the public is my favorite

[01:05:30]	that will be something because it is a
	great communication tool and I know
	we'll have some public meetings but
	certainly that's still part of the
	Plan. Right. And that's
	that's in the calendar. Right? Yes. We
[01:05:43]	already published the budgeting bid
[01:05:46]	based on the permanent numbers on the
[01:05:48]	POP website, along with the permanent
	budget document that you received. And
	we'll update that once you have the,
	you know, you approve the budget.
	Right. And I, you know, while I don't
	think there's anything dramatically
	newsworthy other than perhaps we're
	just holding the numbers steady,
	I really just hope that when we're
	trying to communicate to the public,
[01:06:09]	it's really have to go through the
[01:06:11]	media to help the public know what's
[01:06:12]	going on. And maybe they would want to
	attend one of our meetings which are
	notoriously poorly attended.
	Other than the consultants that want
	to figure out how to get work with the
[01:06:21]	
	I see that as some opportunity that we
	could continue to try to leverage
	again help the public appreciate
	the role that we play in this
	community. So
	So that's something that I've been
	drilling on for a long time. One of
	the things that laying out there is
	that T30 settlement. Right. Which is
	an extraordinary chunk of change that
	I know we're not going to see it as a
	lump sum that we're going to spend all
	of a sudden, but it does give us
[01:06:51]	flexibility. Like you said, the 24
[01:06:53]	million surplus. But we also have that
[01:06:55]	buffer in
[01:06:56]	in there and I don't know is there any
	discussion of an allocation of some of
	that money for this coming year? Are
	we leveraging that at all? When we
	prepared the plan of finance that was
	presented on the 28th, we did factor
	in a certain amount of settlement
	money. The actual settlement was a
	little bit more than we had put into
	our analysis. So there. But we had not
	tag those dollars to any specific use
	just to uses that would normally use
	our general fund. I
	I appreciate that, you know, because,
	you know there's a somewhat of a
	tautology or we do austere
	austere budget and therefore we can't
	do as much. Right. So the question is
	if we really had whether it be
	deferred maintenance or which is
[01:07:44]	always an important investment

	or future activities.
	You know, I think we have to talk
	about the need and then the question
	about what you budget for the need.
[01:07:55]	That's just. I
[01:07:58]	I think that's a question that I think
	what lies above or below the CIP is a
[01:08:02]	conversation that perhaps we can
	further discuss. I
	I guess the only other thing is
	I just feel it's important for meet
	every time to this when this brings up
	when we see \$400,000 for a propeller.
	It's not an art object that we're
	spending this money for the point of
	this is twofold. One is to bring
	public attention to something that
	they would look for. What is this
	about the port? When we see something
	like this rather than some
	interpretive plaque? But also, I fully
	expect that we're going to lose Jack
	Perry park as part of the expansion of
	the Coast Guard. And I've spoken with
	ILW about, like, Fisherman's Terminal.
	We have a memorial for Fisherman's
	Terminal. Jack Perry park itself is a
	memorial to an individual, but also
	was intended to do more of a
	recognition to folks in the maritime
	who have lost their lives in the
	course of service. And so,
	you know, I've seen this potentially
	potentially seen as like a lark, and I
	really do see it as the propeller cost
	us nothing to begin with, but the idea
	that it would be a way to
	further memorialize this memorial,
	make sure that doesn't go away. And I
	see this as an opportunity to draw
	attention to the. We're going to be
	right next to T5 with the waterfront
	in front of us. I just see this as
	something that has
	has more of a role than it might
	appear if you just see a budget line
	item. So I feel it's important to explain that. Thank
	•
	Thank you. Oh, last thing. Yes. 2%
	average, when
	when you see this kind of oscillation, lis kind of a meaningless number, you
	know, so to say this is an average, I
	know, so to say this is an average, i   mean, I, I think in terms of
	justifying 2%, what it, what I think
	i justifying 2%, what it, what i think is the better justification is that it
	gives us the latitude to fluctuate.
	But the fact that it ends up at 2%, so
	we use 2% as the goal,
	it's kind of. That average is kind of
	arbitrary to me. So to see that we're setting our policy on
	on an average that reflects a
[U1.1U.12]	on an average that rehects a

[01:10:14] tremendous variability

[01:10:17] doesn't really seem to be a really	
[01:10:19] good rationale. Well, the 2% is to	
[01:10:22] track with the growth in the maximum	
[01:10:24] levy. So you preserve that	
[01:10:27] 25% of the maximum as that buffer, a	s
[01:10:30] you say, can be tapped into	
[01:10:33] for, for emergencies. I know when we	,
[01:10:37] during the pandemic, we	
[01:10:39] we were considering whether to raise	
[01:10:42] the levy by a significant amount, but	
[01:10:43] then we got the federal funding and w	е
[01:10:45] didn't need to. But it has in. That's.	
[01:10:48] That's where the 2% comes from.	
[01:10:51] The draft isn't that. But wasn't that	
[01:10:53] what you said, overall, was the	
[01:10:55] average over since 1990?	
[01:10:58] Was that the	
[01:11:00] the growth in the levy? You know, the	
[01:11:03] the rate of the levy, I thought was.	,
[01:11:06] Was. Yeah. At a 2% growth, wasn't th	at
[01:11:08] the overall average? That's what it	aı
[01:11:10] has been now. But but overall no it	
[01:11:13] and not have to go look at what the	
[01:11:17] yeah right. I I thought you were	
[01:11:19] taking like the peak and then [01:11:21] averaging it over this flat period of	
[01:11:23] time and with the decline. So overall	
[01:11:27] that's not the so that wasn't the	
[01:11:28] number that I thought it was. Never	
[01:11:31] mind. Thank you.	
[01:11:34] Okay, a couple of quick questions for	ا۔ ا
[01:11:35] you guys. For me on slide seven. Cou	IIa
[01:11:38] we go to slide have them that's	
[01:11:45] that's coming out. My question is how	
[01:11:47] many of these are ongoing costs now	٠,
[01:11:50] baked into our budget and how many	OT
[01:11:52] them are there's roughly 20 million	
[01:11:55] here, let's say in annual costs.	
[01:11:58] How much of that 20 million is just a	
[01:12:00] one time cost versus an ongoing new	
[01:12:02] expense that we just need to	
[01:12:04] most of them are new or addition.	
[01:12:08] Some of them have existing like the	
[01:12:10] expense portion to the capital	
[01:12:11] project. We do have those	
[01:12:15] almost every year or every year but	
[01:12:17] this is on top of that and then same	
[01:12:19] you can look at some of those new	
[01:12:21] items, some of new study or new	
[01:12:24] services related to the	
[01:12:27] operation or	
[01:12:29] or the other ones. The like the	
[01:12:31] computer refresh is another example.	
[01:12:33] We do have computer refresh every	
[01:12:36] year, but this is the new addition	
[01:12:39] because we pour some of the refresh	
[01:12:43] we do some of the pieces refresh the	
[01:12:43] we do some of the pieces refresh the [01:12:46] prior years after Covid	
[01:12:43] we do some of the pieces refresh the [01:12:46] prior years after Covid [01:12:49] so now it's more catch up. So we	
[01:12:43] we do some of the pieces refresh the [01:12:46] prior years after Covid [01:12:49] so now it's more catch up. So we [01:12:51] expect actually to catch up in the	
[01:12:43] we do some of the pieces refresh the [01:12:46] prior years after Covid [01:12:49] so now it's more catch up. So we	

[01:13:00] Okav. so I'm hearing a blend here. [01:13:03] Some of this is let's [01:13:05] let's take the example of the TSA exit [01:13:08] lane staffing. Did we have to do that [01:13:10] this year because of an extraordinary [01:13:12] circumstance and we'll revert to a [01:13:14] lower level later, or is this a new [01:13:16] heightened level of TSA exit lane [01:13:18] staffing that we're just going to have [01:13:19] to budget for moving forward every [01:13:21] year? I [01:13:22] I don't know if Heidi is on the call. [01:13:25] Can you provide a little bit more [01:13:26] detail, Heidi? Yes, [01:13:28] Yes, absolutely. Yes. Commissioner [01:13:32] Heidi Papachak Director Aviation [01:13:34] Finance and Budget with the TSA exit [01:13:36] lane staffing, we work with our [01:13:39] Seattle Tacoma Airline consortium [01:13:41] partners to determine what the work [01:13:43] plan will be every year to provide [01:13:46] this service for [01:13:47] for 2025. We did have an unbudgeted [01:13:51] expense to effectuate the contract [01:13:53] that was approved earlier this year. [01:13:56] And for 2026 we're capturing [01:14:00] that contract [01:14:01] contract or the future contract work [01:14:04] plan work which is we initially had [01:14:06] \$3.5 million in the 2026 budget and [01:14:10] today for [01:14:11] for the first reading, we added an [01:14:13] additional 1.1 million [01:14:15] to capture what that future contract [01:14:18] that preliminary contract work plan [01:14:20] entails. So this is a one time [01:14:23] addition and we'll continue to [01:14:25] reevaluate every year in partnership [01:14:27] with the STAC folks [01:14:29] folks and determine what will be [01:14:32] perhaps a ongoing funding amount. But [01:14:36] right now we utilize the one time [01:14:38] process to include in the budget for [01:14:41] 2026. Hopefully [01:14:43] Hopefully that answers your question. [01:14:44] It does. Thank you. On [01:14:47] On the. Oh, [01:14:50] Oh, Wendy, I see your hand too. Go [01:14:52] ahead. No, [01:14:54] No, sorry. I also wanted to add that [01:14:56] we're working with both Alaska Delta [01:14:58] and our delegation because we continue [01:15:01] to want to support TSA being able to [01:15:04] staff this, not the airlines or the [01:15:07] airport. So [01:15:08] So our goal is to not have to use this [01:15:11] at all in the future. [01:15:13] Great. And I understand that we've [01:15:16] heard from the [01:15:18] the headquarters of TSA that they're

[01:15:20] planning to reduce our staffing [01:15:22] significantly. Is that true? [01:15:25] Yes, that is true. So our staffing

	1 2 2 1 1 1 1 20 20
	analysis did come back with a quite a
[01:15:31]	large reduction for 2026 and we are
[01:15:35]	working with TSA headquarters and the
	delegations on that currently.
	Unfortunately, the shutdown has not
	helped us in our communication, but
	we'll continue to work with them and
	get back with you on that. Okay. All
[01:15:49]	right. Second question is can you just
[01:15:51]	clarify a term for me when you say
[01:15:53]	bond redemption, that's a payoff of
	that bond amount? It's yes, recalling
	that bond. And okay,
	I want to share too that I appreciate
	the consideration next year in doing a
	deeper examination of that deferred
[01:16:09]	maintenance question that I raised in
[01:16:10]	the Oct. 28 meeting.
[01:16:13]	I think part of the way I want to
	approach these questions about levy is
	from the perspective of what does the
	port need to
	•
[01:16:23]	
	ask of the public to
	to pay in order to ensure that we are
[01:16:29]	being, we're
[01:16:31]	we're using
[01:16:33]	using this the sort of wisdom of the
	adage that an ounce of prevention is
	worth a pound of cure. Right. So if we
	could ask a little bit more up front,
	but it would ensure that down the road
	there would be fewer larger expenses
[01:16:46]	to deal with that. We're making sure
[01:16:49]	that those projects that are on the
[01:16:50]	cusp and may not get of paid for in
[01:16:53]	this year because we didn't quite ask
	enough in the levy that maybe we
	reconsider that. And so I think as we
	move forward in 26, that would be part
	of the litmus test for me. I think
	that's also true with debt repayment
[01:17:06]	that we should think about
[01:17:09]	if we took a larger portion of the
	levy now, would
	would that allow
	allow us to save money in interest
	rates, payments or potentially
	demonstrating the kind of credit
	worthiness that we really want to be
	able to demonstrate for future bonds
[01:17:29]	and other credit instruments.
[01:17:33]	And I really need your expertise to
	navigate that. I'm not a finance or
	accounting guy. And so I think you are
[01:17:30] [01:17:30]	trying to present, you know, there's
	an argument both ways, and we want to
	make sure that we've got a cushion to
	support that. And then finally, I do
	want to go Back to Slide 25,
[01:17:49]	25, which
[01:17:53]	which is the levy history slide, if I
	have the number right, Making

[01-17-57]	Making Aubree work really quickly here
	as she's pulling up the red line.
	Nothing we do affects that, right?
	That's. It's the
	economy of the region that determines
[01:18:10]	that. Essentially, it's actually the
[01:18:13]	state statute that takes last year's
	maximum, adds 1%, adds in a factor for
	new construction, and roughly 2%
	increase each year. And so if, let's
	say in 2016 we decided to take a 15%
	•
	increase, it wouldn't have changed the
	trajectory of that red line. That's
[01:18:30]	just determined by state statute.
[01:18:33]	So when we talk about that cushion
[01:18:35]	between. What we're talking about is
	not that in the future we could go
	back and retroactively say, boy, we
	didn't take the maximum in 2023.
	We need that money now because there's
	been some Black
	Black sky event. Let's say
[01:18:52]	it's too late at that point. And the.
[01:18:55]	And your counter argument has been,
[01:19:00]	want to make sure that the port lives
	within its means, isn't
	getting profligate with its spending,
	because, hey, listen, we've got this
	extra money. Let's just take it and
	spend it on something. For me, it's
	the sort of metaphor as a homeowner of
	like, I got a little extra money this
[01:19:13]	year. I'm going to put it in a pool in
[01:19:14]	the backyard. And then we discover
[01:19:16]	that, you know, we needed that money
	for something else down the road, or
	the next time we go for a home loan,
	they're like, well, you spent money
	needlessly. And so.
	And I'm sympathetic to that. I'm also.
	It's why, returning to that question
[01:19:31]	
	I am comfortable using as much of the
[01:19:35]	levy as we need in order to address
[01:19:37]	these real concerns around debt
[01:19:40]	maintenance, sorry, debt repayment and
	deferred maintenance, that
	that I don't think that is going to
	create in the commission a sense that
	we can just spend profligately. But
[01:19:53]	
	I think you guys have put together a
	budget that does reflect that balance
	for this year. And so I am comfortable
[01:20:00]	with that. I just don't want. I don't
[01:20:03]	want that to be the sentiment that
	drives it. That you know, we're going
	to keep that cushion just for the sake
	of keeping the cushion. I think that's
	important as we move forward. The
	other thing is, you
	you know, I think the numbers we're
1011111111111	talking about here, the difference

[01:20:18] between \$85 per household and \$87 per [01:20:21] household is not really factoring into [01:20:25] any taxpayer sentiment. Particularly [01:20:27] if I can get up in front of taxpayers [01:20:29] and say we are using this to ensure [01:20:32] that our peers and infrastructure and [01:20:36] the capacity to move goods and people [01:20:37] around the region is [01:20:40] resilient and efficient. That is an [01:20:43] easy case for me to make for an extra [01:20:45] \$2 a year. So provided we're doing it [01:20:47] for those things, we're not. We're not [01:20:49] installing the pool in the background [01:20:51] backyard, but we're, you know, fixing [01:20:53] the deck or repairing the roof. I'm [01:20:55] perfectly comfortable with an increase [01:20:57] if that's what's appropriate. So [01:21:00] enough with my soliloquy here. I've [01:21:03] got one more comment from Commissioner [01:21:05] Cho. Well, Commissioner com has got me [01:21:06] going on this tax levy thing again, so [01:21:08] now I have to make. Set [01:21:10] Set him off. No, no, no, [01:21:13] no, no. You know, I couldn't agree [01:21:14] more with Commissioner Calkins. [01:21:16] You know, and you know, I totally [01:21:19] understand the concerns that staff [01:21:21] have around our impacts on our ratings [01:21:25] or when it comes to underwriting. I [01:21:27] understand that sentiment. At the same [01:21:28] time, I believe that there are [01:21:31] mechanisms that we can create within [01:21:32] our organization that mitigates a [01:21:34] against those risks. Right. The state [01:21:36] of Washington has a rainy day fund [01:21:38] that can only be accessed when a super [01:21:40] majority of the legislature gives [01:21:45] the governor the permission under [01:21:47] certain circumstances. Right. And the [01:21:49] reason why I think this is so [01:21:50] important is because if you look at [01:21:52] this slide we're looking at right now, [01:21:54] and Elizabeth, you went over every [01:21:56] time that we raised the levy, every [01:21:59] time we raised the levy was in a [01:22:01] moment of crisis, whether it was after [01:22:03] 9 11, whether it was 0809 financial [01:22:06] crisis, you can clearly see the [01:22:10] exponential growth of this curve in [01:22:12] those moments. And I foresee a time [01:22:16] where we're in a recession or things [01:22:17] slow down for us and we may have to [01:22:20] consider raising the levy. But from a [01:22:23] constituency standpoint, that's the [01:22:25] last time. That is the worst time to [01:22:28] be taxing people even more during a [01:22:30] financial crisis. This is why I'm [01:22:32] advocating for us to be prepared ahead [01:22:36] of time. Right. And to be able to say, [01:22:39] yeah, we're in trouble, but you know [01:22:41] what? We've been preparing for this [01:22:42] for the last five years. We're good. [01:22:44] We can tap into these cash reserves

	and Say and
[01:22:47]	and not have to, you know, if you go
[01:22:49]	from the 88 million we're doing this
[01:22:51]	year to 120 million the next year
[01:22:53]	because we're in a financial piss, I
[01:22:55]	guarantee you that will piss off
[01:22:56]	people way more than if we were
[01:22:58]	banking things over time. Right. And
	if we put the, put that excess into
	some sort of reserve fund, you know,
	rainy day fund that it's difficult for
	us to access unless it's under certain
[01:23:12]	circumstances. I don't, you know, and
	because I want, I want to lean on you
	all to go to the rating agencies and
	pitch this to say, hey, is this going
	to still affect our rating? Right. And
	if the answer is no, then we should
	seriously consider creating some sort
[01:23:26]	
	a port stabilization fund or whatever
	we want to call it. But I do think
	that we have a lot of liabilities in
	the upcoming, whether it's
	environmental mitigation, remediation
	work, whether it's stuff that we need
	to do, you
	you know, construction wise
	and, and the like. And so I would
	rather feel much better and I think
	our constituents would also feel much
	better if we took the long view here,
	prepared for the unknown and made sure
	that when the time comes, whether it's
	a recession or whatever, that we are
	amply prepared with some sort of
	stabilization fund. And so that's what
	I'm asking you all to look into for
	next year's budget that I'm not going
	to oppose this year's budget because
	we're here and I don't want to disrupt
	it too much, but I do. That's why I'm
	•
	looking forward to your, your
	your analysis on the levy in all
	scenarios and hopefully next year we
	can come up with a creative mechanism
	for that. I appreciate all the
	suggestions. We will be looking at all
	of this. And
	And another comment from Commissioner
	Felleman while
	while we're talking about next year's
	plans. I've raised on a numerous
	occasions is that looking at
	properties that are badly
	underperforming or stranded assets,
	the potential to actually, I know it's
	very important to talk about selling
	property with the net, no net loss,
	policy of reinvesting
	and sabotage keeps on coming up. I
[01:24:54]	think we have what a lease,

[01:24:56] some cruise line has a lease, they're

[01:24:58] storing lawn chairs or something in [01:25:00] there, but it's [01:25:02] it's a non revenue generator. And, [01:25:06] and there's other properties that we [01:25:08] are looking at potentially to do [01:25:09] things with. So also the potential of [01:25:12] Coast Guard sales for small properties [01:25:14] that we have in their expansion, the [01:25:17] potential potentiality of having [01:25:20] these, you know, one time [01:25:22] chunks of change to reinvest in other [01:25:26] very much port specific operations. I [01:25:29] think. I think next year might be a [01:25:31] really good time to be looking at [01:25:32] that. So I [01:25:34] I just want to add it to your to do [01:25:35] list, if you can incorporate that. [01:25:37] Thank you. All [01:25:39] All right. As a reminder, this comes [01:25:42] before us again in a couple of weeks. [01:25:44] So we're at the introduction phase. [01:25:46] There's an opportunity for continued [01:25:47] discussion. And as a part of that. [01:25:49] today is a public hearing too. So I'm [01:25:51] going to open it back up for public [01:25:53] hearing on this item followed by any [01:25:55] additional commissioner debate. Are [01:25:57] there any additional [01:26:00] additional questions from [01:26:02] commissioners of the times? Okay. [01:26:03] Hearing. No further questions for [01:26:05] staff. The public hearing is open. [01:26:07] Speakers will have two minutes each to [01:26:09] present their testimony. Clerk Hart. [01:26:11] do we have any signups for the budget [01:26:13] public hearing today? We did not [01:26:15] receive any signups either virtually [01:26:17] or in person for the budget public [01:26:20] hearing today. Okay. Is there anyone [01:26:21] from the room who did not sign up for [01:26:23] the public hearing who wishes to [01:26:24] present testimony at this time? [01:26:28] Okay. All [01:26:30] All right. Is there anyone joining us [01:26:32] virtually who has not already spoken [01:26:34] and wishes to testify at this time? [01:26:38] I'm not seeing any little hands or [01:26:40] anything. Okay. [01:26:42] Okay. Since [01:26:46] Since I'm not seeing anyone else [01:26:48] present wishing to testify, we'll [01:26:49] close the public hearing and move [01:26:51] discussion to the commission. Is there [01:26:53] any additional discussion, [01:26:54] Commissioners? Okay. [01:26:56] Okay. Is there a motion to introduce [01:26:58] resolution numbers 3839 and 3840? So [01:27:03] moved. Second. [01:27:05] Second. The [01:27:07] The motion was made and seconded. Is [01:27:10] there any discussion or debate? Debate

[01:27:11] on this item? No. [01:27:13] No. All right.

[01:27:15] Clerk Hart, please call the roll for

	17] the vote. Commissioners, please say I
	19] or nay when your name is called. Thank
	21] you. Beginning with Commissioner Cho.
-	23] Aye. As
	24] As a clarification, this is a vote on
-	26] the introduction of the resolution and
	28] the levy, correct? Commissioner
	30] Pelhaman, I.
[01:27:	32] I. Thank you. Commissioner Calkins?
[01:27:	34] Aye. Thank you. Three ayes zero nays
[01:27:	37] for this item. And with that, the
[01:27:	39] motion passes. Resolutions 3839 and
[01:27:4	41] 3840 are introduced and we'll be back
[01:27:4	44] before the commission for
[01:27:4	45] consideration of adoption at the
[01:27:4	46] November 18, 2025 meeting.
[01:27:	51] So we are going to take a quick five
[01:27:	53] minute recess, stretch
[01:27:	54] stretch break and we will be back at
[01:27:	59] 1:45 for the remaining items.
[01:28:0	03] All right. Clerk Hart, please read the
[01:28:0	06] next item into the record.
[01:28:0	08] Executive Director Metruck will then
[01:28:	10] introduce it. Thank
[01:28:	12] Thank you. This IS agenda item 10B.
[01:28:	15] Adoption of the 2026 marine stormwater
[01:28:	18] utility rates with a 10% increase from
- [01:28:2	21] 2025. Commissioners.
[01:28:2	24] Commissioners. Today's item provides
	25] an update on the marine stormwater
	28] utility and requests your
	30] consideration of the proposed 2026
[01:28:	32] rate adjustment representing a 10%
[01:28:	34] increase over the current year. The
[01:28:	36] Utility continues to perform strongly
[01:28:	38] delivering drainage and water quality
[01:28:4	41] improvements across key maritime
[01:28:4	42] facilities and advancing the
[01:28:4	44] implementation plan of an
[01:28:4	46] an updated five year strategic plan.
[01:28:4	48] The recommended rate adjustment
[01:28:4	49] endorsed by the Utility Rate Advisory
[01:28:	51] Committee ensures continued investmen
[01:28:	54] in essential maintenance, regulatory
[01:28:	56] compliance, compliance and asset
[01:28:	57] rehabilitation while beginning the
[01:28:	59] process of rebuilding reserves that
	00] have been eroded by inflation and
[01:29:0	02] prior rate limitations. Even with this
[01:29:0	05] proposed increase, the port's rates
[01:29:0	08] remain below those of the City of
[01:29:	10] Seattle, allowing us to sustain a
	12] competitive position while continuing
	14] to lead in environmental stewardship
[01:29:	15] and resilient maritime infrastructure.
[01:29:	18] It is important to Note that the 10%
	20] rate increase reflects the balance of
	21] port approach. It required significant
	23] reductions to the five year capital
	25] program and not only will not
[01:29:2	28] fully restore the six month reserve
	301 target, though it sets a prudent

[01:29:31] course to rebuild those reserves over
[01:29:33] the next several years. This is a
[01:29:36] balanced approach. This proposal
[01:29:37] represents a careful equilibrium
[01:29:39] between fiscal responsibility and
[01:29:42] ratepayer sensitivity. Staff
[01:29:44] collaborated extensively across
[01:29:45] operations, finance and leadership to
[01:29:47] avoid evaluate alternatives and the
[01:29:49] resulting recommendation reflects both
[01:29:51] the necessity of reinvestment and the
[01:29:52] recognition of current economic
[01:29:54] realities. And
[01:29:56] And the presenters are this afternoon
[01:29:59] are Sarah Ojay, Director of Maritime
[01:30:01] Environment and Sustainability and
[01:30:03] Jane Doel, the Senior Manager for
[01:30:05] Stormwater Utilities. So with that
[01:30:07] I'll turn it over to Sarah to kick us
[01:30:08] off. Thank you. Well,
[01:30:11] Well, thank you Executive Metric.
[01:30:14] Great introduction. I think you hit so
[01:30:16] many of the key points and
[01:30:18] and commissioners. Hello. It's a
[01:30:20] pleasure to be here today as
[01:30:22] as we come to you as we do every fall
[01:30:24] to talk about our proposal for the
[01:30:26] coming year's stormwater utility.
[01:30:29] If you could go to the next slide,
[01:30:31] I'll hit a couple highlights for you.
[01:30:33] This year we are requesting a 10% rate [01:30:35] increase from
TO 1.30.331 Increase from
[01:30:37] from our base, from our 2025 rate that
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders.
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:08] the Century Agenda goals. If you can
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:08] the Century Agenda goals. If you can [01:31:11] see on this slide, there's a number of
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:08] the Century Agenda goals. If you can [01:31:11] see on this slide, there's a number of [01:31:13] criteria we consider when picking a
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:08] the Century Agenda goals. If you can [01:31:11] see on this slide, there's a number of [01:31:13] criteria we consider when picking a [01:31:15] rate and
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:08] the Century Agenda goals. If you can [01:31:11] see on this slide, there's a number of [01:31:13] criteria we consider when picking a [01:31:15] rate and [01:31:16] and I wanted to draw your attention to
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:08] the Century Agenda goals. If you can [01:31:11] see on this slide, there's a number of [01:31:15] rate and [01:31:16] and I wanted to draw your attention to [01:31:18] the third sub bullet there which is
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:08] the Century Agenda goals. If you can [01:31:11] see on this slide, there's a number of [01:31:13] criteria we consider when picking a [01:31:15] rate and [01:31:16] and I wanted to draw your attention to
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:08] the Century Agenda goals. If you can [01:31:11] see on this slide, there's a number of [01:31:13] criteria we consider when picking a [01:31:15] rate and [01:31:16] and I wanted to draw your attention to [01:31:18] the third sub bullet there which is [01:31:21] supporting a six month fund reserve
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:08] the Century Agenda goals. If you can [01:31:11] see on this slide, there's a number of [01:31:13] criteria we consider when picking a [01:31:15] rate and [01:31:16] and I wanted to draw your attention to [01:31:18] the third sub bullet there which is [01:31:21] supporting a six month fund reserve [01:31:23] consistent with port policy and best
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:05] all combined help us attain and meet [01:31:11] see on this slide, there's a number of [01:31:13] criteria we consider when picking a [01:31:15] rate and [01:31:16] and I wanted to draw your attention to [01:31:21] supporting a six month fund reserve [01:31:23] consistent with port policy and best [01:31:25] practices. This is a very important [01:31:28] criteria to pay attention to to during [01:31:30] this discussion because as the
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:08] the Century Agenda goals. If you can [01:31:11] see on this slide, there's a number of [01:31:13] criteria we consider when picking a [01:31:15] rate and [01:31:16] and I wanted to draw your attention to [01:31:18] the third sub bullet there which is [01:31:21] supporting a six month fund reserve [01:31:23] consistent with port policy and best [01:31:28] criteria to pay attention to to during
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:05] all combined help us attain and meet [01:31:11] see on this slide, there's a number of [01:31:11] rate and [01:31:15] rate and [01:31:16] and I wanted to draw your attention to [01:31:18] the third sub bullet there which is [01:31:21] supporting a six month fund reserve [01:31:23] consistent with port policy and best [01:31:28] criteria to pay attention to to during [01:31:30] this discussion because as the [01:31:35] fallen behind on sustaining that
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:08] the Century Agenda goals. If you can [01:31:11] see on this slide, there's a number of [01:31:13] criteria we consider when picking a [01:31:15] rate and [01:31:16] and I wanted to draw your attention to [01:31:18] the third sub bullet there which is [01:31:23] consistent with port policy and best [01:31:25] practices. This is a very important [01:31:28] criteria to pay attention to to during [01:31:30] this discussion because as the [01:31:35] fallen behind on sustaining that [01:31:37] reserve and really feel a need to
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:08] the Century Agenda goals. If you can [01:31:11] see on this slide, there's a number of [01:31:11] criteria we consider when picking a [01:31:15] rate and [01:31:16] and I wanted to draw your attention to [01:31:18] the third sub bullet there which is [01:31:21] supporting a six month fund reserve [01:31:23] consistent with port policy and best [01:31:28] criteria to pay attention to to during [01:31:30] this discussion because as the [01:31:35] fallen behind on sustaining that [01:31:37] reserve and really feel a need to [01:31:39] course correct and make sure we get
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:08] the Century Agenda goals. If you can [01:31:11] see on this slide, there's a number of [01:31:13] criteria we consider when picking a [01:31:15] rate and [01:31:16] and I wanted to draw your attention to [01:31:18] the third sub bullet there which is [01:31:23] consistent with port policy and best [01:31:23] criteria to pay attention to to during [01:31:30] this discussion because as the [01:31:33] Executive Director mentioned, we have [01:31:37] reserve and really feel a need to [01:31:39] course correct and make sure we get [01:31:41] back on a path to maintain that
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:08] the Century Agenda goals. If you can [01:31:11] see on this slide, there's a number of [01:31:13] criteria we consider when picking a [01:31:15] rate and [01:31:16] and I wanted to draw your attention to [01:31:18] the third sub bullet there which is [01:31:21] supporting a six month fund reserve [01:31:23] consistent with port policy and best [01:31:25] practices. This is a very important [01:31:28] criteria to pay attention to to during [01:31:30] this discussion because as the [01:31:33] Executive Director mentioned, we have [01:31:37] reserve and really feel a need to [01:31:39] course correct and make sure we get [01:31:41] back on a path to maintain that [01:31:43] reserve fund and our proposal will do
[01:30:37] from our base, from our 2025 rate that [01:30:40] is. And [01:30:41] And it's guided by feedback from our [01:30:43] advisory group including the Northwest [01:30:46] Seaport alliance operations and also [01:30:49] our Port of Seattle operations [01:30:52] managers and financial leaders. [01:30:55] This is going to help us meet and [01:30:57] exceed regulatory requirements and [01:31:00] does support maintenance and some [01:31:03] limited capital and investments that [01:31:05] all combined help us attain and meet [01:31:08] the Century Agenda goals. If you can [01:31:11] see on this slide, there's a number of [01:31:13] criteria we consider when picking a [01:31:15] rate and [01:31:16] and I wanted to draw your attention to [01:31:18] the third sub bullet there which is [01:31:23] consistent with port policy and best [01:31:23] criteria to pay attention to to during [01:31:30] this discussion because as the [01:31:33] Executive Director mentioned, we have [01:31:37] reserve and really feel a need to [01:31:39] course correct and make sure we get [01:31:41] back on a path to maintain that

[01:31:49]	Seaport alliance has raised some
	concerns about this increase. They've
	asked for more input on the rate and
	we we plan to work with them in the
	coming year to look at their unique
[01:32:00]	requests. So we are working with them
	and I think we're on a good path for
	collaboration in the coming year.
	A little background. This stormwater
	utility rate is collected from all the
	port properties. So
	So that includes the
	the alliance properties as well as the
	home port properties. And based on the
	square footage so tenants and or the
[01:32:23]	alliance or ourselves pay a rate
[01:32:25]	proportionate to the area and the type
[01:32:28]	of use. Approximately
[01:32:29]	Approximately 70% of the stormwater
	utility income comes from NWSA
	licensed properties and the remaining
	30% of the revenue is collected from
	port and port tenant properties. And
	again, as the Executive Director
	mentioned, the City of Seattle
	stormwater rates are higher than our
[01:32:47]	
	and City of Seattle stormwater utility
	ratepayers pay on average 15% more for
	their stormwater utility than our port
	property. Port
	Port properties do pay.
	So again, this utility fund balance
	recently dropped below the six month
	target and that conflicts with our
	criteria. So it's very important to us
	that we make
[01:33:14]	make this adjustment. Anything lower
[01:33:15]	would raise significant concern for me
[01:33:19]	that we weren't being able to maintain
[01:33:20]	that reserve. I'm going to hand it
	over to Jane, our program manager
	here. One second. She's going to cover
	a little bit about our 2025 work for
	the stormwater utility, some of the
	financial objectives. She'll describe
	what's included in the 2026 budget
	proposal and then share with you our
	rate proposal in the little more
	detail. Thank
	Thank you please Jane. Thanks Sarah.
	Good afternoon Commissioners,
	Executive Director of Metric. So next
	slide please. Wanted
	Wanted to share a few of our
[01:33:50]	accomplishments this year. As noted,
	we're working on our updated strategic
	plan. Our first strategic plan covered
	2021 through 2025. That was the first
	time we developed specific goals after
	creating the stormwater utility and
	engaging in 2016. So our
	new plan will
[O1.04.00]	now plan will

[01:34:11]	reflect stakeholder input that was
	gathered during a variety of
	workshops. Stakeholders were both
[01:34:16]	inside and tenants to the Port and the
	Northwest Seaport Alliance. The
[01:34:22]	strategic plan, which we hope to
[01:34:23]	publish by the end of this year, will
[01:34:25]	define our goals, measurable outcomes
	and address resiliency
[01:34:30]	exceptional value for the money that
[01:34:34]	we all pay into the utility
	sustainability and equity diversity
	inclusion Another
	Another area of work that we do
	regularly is our asset management and
	stewardship. Some of our
	accomplishments in the last year
	Include progress
	progress toward rehabilitating our 72
	miles worth of stormwater lines. We
	track that with our GIS mapping our
	camera truck and our skilled marine
	maintenance staff that help us both
	repair and also categorize the kinds
	of asset conditions that we have
	throughout our system. Some
	Some of our pipe repairs were
	completed in terminals 18, 25 and 30
	and terminal 46. You'll note those are
	all areas managed by the Northwest
	Seaport alliance that are heavy
	industrial container terminals.
	We also have the opportunity to focus
	on innovative stories stormwater
	treatment. And those include
	incorporating a system called retain
	drain in our parks which is a
	I filtration system. And
	And also continuing to monitor the
	effectiveness of our oyster shell treatment barrels. And the splash box
	•
	which is the bioretention in a box.
	The photos here show some of our pipe materials in the top picture. And then
	Shilsho Bay Marina, the Rain Garden.
	Our capital projects include we were
[01.00.00]	contributing to the Terminal 891 Berth
[01:35:50]	6 and 8 project. We added some area
	6 and 8 project. We added some area which the stormwater utility paid for
[01:36:03]	6 and 8 project. We added some area which the stormwater utility paid for additional treatment in a capital
[01:36:03] [01:36:05]	6 and 8 project. We added some area which the stormwater utility paid for additional treatment in a capital project that was already under design
[01:36:03] [01:36:05] [01:36:07]	6 and 8 project. We added some area which the stormwater utility paid for additional treatment in a capital project that was already under design so that should be completed this year.
[01:36:03] [01:36:05] [01:36:07] [01:36:10]	6 and 8 project. We added some area which the stormwater utility paid for additional treatment in a capital project that was already under design so that should be completed this year.  And other tenant improvements in the
[01:36:03] [01:36:05] [01:36:07] [01:36:10] [01:36:12]	6 and 8 project. We added some area which the stormwater utility paid for additional treatment in a capital project that was already under design so that should be completed this year. And other tenant improvements in the Maritime Industrial center which
[01:36:03] [01:36:05] [01:36:07] [01:36:10] [01:36:12] [01:36:14]	6 and 8 project. We added some area which the stormwater utility paid for additional treatment in a capital project that was already under design so that should be completed this year. And other tenant improvements in the Maritime Industrial center which
[01:36:03] [01:36:05] [01:36:07] [01:36:10] [01:36:12] [01:36:14] [01:36:16]	6 and 8 project. We added some area which the stormwater utility paid for additional treatment in a capital project that was already under design so that should be completed this year. And other tenant improvements in the Maritime Industrial center which helped a tenant that has an industrial stormwater permit have some basic
[01:36:03] [01:36:05] [01:36:07] [01:36:10] [01:36:12] [01:36:14] [01:36:16] [01:36:18]	6 and 8 project. We added some area which the stormwater utility paid for additional treatment in a capital project that was already under design so that should be completed this year. And other tenant improvements in the Maritime Industrial center which helped a tenant that has an industrial stormwater permit have some basic infrastructure that improve drainage
[01:36:03] [01:36:05] [01:36:07] [01:36:10] [01:36:12] [01:36:14] [01:36:16] [01:36:18] [01:36:20]	6 and 8 project. We added some area which the stormwater utility paid for additional treatment in a capital project that was already under design so that should be completed this year. And other tenant improvements in the Maritime Industrial center which helped a tenant that has an industrial stormwater permit have some basic infrastructure that improve drainage and their ability to
[01:36:03] [01:36:05] [01:36:07] [01:36:10] [01:36:12] [01:36:14] [01:36:16] [01:36:18] [01:36:20] [01:36:22]	6 and 8 project. We added some area which the stormwater utility paid for additional treatment in a capital project that was already under design so that should be completed this year. And other tenant improvements in the Maritime Industrial center which helped a tenant that has an industrial stormwater permit have some basic infrastructure that improve drainage and their ability to
[01:36:03] [01:36:05] [01:36:07] [01:36:10] [01:36:12] [01:36:14] [01:36:16] [01:36:18] [01:36:20] [01:36:22] [01:36:26]	6 and 8 project. We added some area which the stormwater utility paid for additional treatment in a capital project that was already under design so that should be completed this year. And other tenant improvements in the Maritime Industrial center which helped a tenant that has an industrial stormwater permit have some basic infrastructure that improve drainage and their ability to treat the waters at that property.
[01:36:03] [01:36:05] [01:36:07] [01:36:10] [01:36:12] [01:36:14] [01:36:16] [01:36:18] [01:36:20] [01:36:22] [01:36:26] [01:36:29]	6 and 8 project. We added some area which the stormwater utility paid for additional treatment in a capital project that was already under design so that should be completed this year. And other tenant improvements in the Maritime Industrial center which helped a tenant that has an industrial stormwater permit have some basic infrastructure that improve drainage and their ability to

[01:36:37] approximately \$4.5 million. We [01:36:39] maintain that as a prudent measure. [01:36:42] Our program is cash from revenue. So [01:36:45] the utility fees that we collect go [01:36:48] directly into all of our programs. And [01:36:49] we want to continue to maintain a [01:36:52] budget to make sure we have a high [01:36:55] functioning stormwater system that can [01:36:58] help improve water quality going into [01:37:00] the regional waterways here. [01:37:03] We also strive to maintain a stable [01:37:06] rate over five year projections. So we [01:37:08] analyze for five years at a time and [01:37:11] then come and analyze [01:37:12] analyze each year. Obviously look at [01:37:15] the pressures and other issues [01:37:17] happening. So I wanted to talk a [01:37:19] little bit about some of the impacts [01:37:21] that have led to the 10% [01:37:23] recommendation. We've [01:37:26] We've had some increases including our [01:37:29] payroll increase this year [01:37:31] at the compensation project. The [01:37:34] was probably not fully anticipated [01:37:36] last year when we put together our [01:37:38] rates. And then we've also had labor [01:37:40] agreement increases. We also pay the [01:37:42] city's business and occupational tax [01:37:44] which were increased from 1.8 to 2.1%. [01:37:49] We also pay a city tax that's about [01:37:52] 12% and that's part of our interlocal [01:37:54] agreement with the city public [01:37:56] utilities. And [01:37:58] And then you know, there have been [01:37:59] regional issues associated with [01:38:02] tariffs and other [01:38:04] construction increases. So those all [01:38:06] put pressure on our stormwater [01:38:08] utility. I [01:38:10] I wanted to also note that we did in [01:38:12] keeping to a 10% increase rather than [01:38:14] something higher, we did cut back on [01:38:16] our five year capital improvement [01:38:18] improvement plan to ensure that we [01:38:21] could stay at 10%. [01:38:23] Next. So [01:38:26] So this slide shows you our past [01:38:29] budgets and a 2026 estimated budget [01:38:32] based on collecting a 10% increase. [01:38:35] So our expected revenue is a little [01:38:37] over 9 million. You can see our [01:38:40] expenses there. Our maintenance is [01:38:42] about half of our overall budget. Our [01:38:45] maintenance group, our [01:38:46] our capital project is about 1.7 [01:38:49] million. And you can also note that [01:38:52] our total expenses and capital is [01:38:54] slightly greater than our income. We [01:38:57] have the annual budget revenue. [01:38:59] The bottom line shows the difference. [01:39:02] And we're able to make up that deficit [01:39:04] by using our reserves, which is what [01:39:06] we've been doing. Next.

[01:39:10] Next. A	.nd
[01:39:13] And thi	s last slide shows you the
[01:39:15] differer	ice between the city of
[01:39:16] Seattle	, which we used to be part of
[01:39:18] until 20	14 when the Camp Commission
[01:39:21] adopte	d the charter to separate the
[01:39:23] marine	stormwater utility from the
[01:39:25] city put	olic utilities, and then the
	rojected rates for 2026. As
	noted, again, the average
	ice is that the city is about
[01:39:35] 15% hi	gher than the port. And the
	nal benefit is that we're
[01:39:39] collecti	ng the revenues and investing
[01:39:41] directly	in our assets and our other
[01:39:44] prograr	ns that support regulatory,
[01:39:45] regulate	ory, complex compliance and
[01:39:47] asset ir	nprovement. So
[01:39:50] So that	's the end of our presentation.
[01:39:56] All right	t. This time, are there any
[01:39:58] questio	ns for staff this time from
[01:39:59] commis	ssioners? Mr.
[01:40:02] Mr. Pel	ham. So
[01:40:06] So if we	e are assuming some
[01:40:08] respons	sibility to make sure, as you
[01:40:10] put it, tl	ne system is functioning,
[01:40:14] does th	at give us any liability
[01:40:15] exposu	re when I know we don't hold the
[01:40:18] permit.	Right. But if we're taking on.
[01:40:22] I know	when we had a little problem
[01:40:24] when w	ve were sort of
[01:40:27] concur	ring with a design for a
[01:40:30] stormw	ater system and
[01:40:32] and go	t sued that it was an inadequate
[01:40:35] design,	do
[01:40:36] do we l	nave any exposure if we are
[01:40:40] taking (	on some of this maintenance
[01:40:42] respons	sibility? Yeah, that's a really
[01:40:44] good q	uestion. So when we were setting
[01:40:46] up our	stormwater utility and
[01:40:47] develop	oing policies dating back to
[01:40:49] 2016, E	Elizabeth Black's been very
	d in all of our decision
	. We have a real clear line
[01:40:55] betwee	n we repair and manage basic
	catch basins, lines for our
	that hold industrial permits
	they they have to increase
	eatment because they're not
	g the benchmarks that the state
[01:41:11] impose	
	es feed to and from and our
	. We're like the basic assets.
	not taking responsibility for
	atment systems that are
	d to help them meet the state
	ments under the permit. So
	areful about walking that line
	n what the utility funds and
	nants that have responsibility
	t management practices,
[01:41:25] trootmo	ant evetame that eart of thing

[01:41:38] Yeah. Does that answer your question?

	So it's basically after the treatment
	has occurred, they're just the
	outfall, more or less the catch basin
	and the outfall. Right. So into the
	basin, it's all the municipal permit,
	as it's called, the standard permit.
	That's our obligation. And if a tenant
	needs additional permit for the unique
	characteristics of their business,
	industrial uses, for example, then
	they would be responsible for those
	permit obligations. But we do repair lines going to and from, like in, you
	know, Terminal 5. If there are
	stormwater lines that are not
	functioning properly, like they have
	cracks in them, we do make repairs on
	those properties and we work with the
	alliance and the tenants in Port pull
	business units for, you know, creating
	the divisions
	divisions between what's our
	responsibility and what's the tenants.
	And we do have that memorialized in a
	variety of policies that the utility
	follows. Good, good. So if we're 15%
[01:42:38]	or so lower than the city,
[01:42:41]	what's the Alliance's concern?
[01:42:47]	I don't pretend to say speak for the
[01:42:49]	Alliance. I want to say that, though I
	have heard concerns of an increase of
	and the second control of the second control
	any sort is a concern for them and
[01:42:56]	their tenants. If I could describe it
[01:42:56] [01:42:58]	their tenants. If I could describe it so simply, more
[01:42:56] [01:42:58] [01:43:00]	their tenants. If I could describe it so simply, more more is bad, but it's still less than
[01:42:56] [01:42:58] [01:43:00] [01:43:02]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06] [01:43:08]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06] [01:43:08] [01:43:10]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06] [01:43:08] [01:43:10] [01:43:13]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06] [01:43:08] [01:43:10] [01:43:13] [01:43:16]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06] [01:43:10] [01:43:13] [01:43:16] [01:43:18]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06] [01:43:10] [01:43:13] [01:43:16] [01:43:18] [01:43:20]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06] [01:43:10] [01:43:13] [01:43:16] [01:43:18] [01:43:20] [01:43:22]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06] [01:43:10] [01:43:13] [01:43:16] [01:43:18] [01:43:20] [01:43:22] [01:43:24]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06] [01:43:10] [01:43:13] [01:43:16] [01:43:18] [01:43:20] [01:43:22] [01:43:24] [01:43:26]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater assets. So I think we need to kind of
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06] [01:43:10] [01:43:13] [01:43:16] [01:43:18] [01:43:20] [01:43:22] [01:43:24] [01:43:28]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater assets. So I think we need to kind of emphasize that being an independent
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06] [01:43:10] [01:43:13] [01:43:16] [01:43:20] [01:43:22] [01:43:24] [01:43:24] [01:43:28] [01:43:28] [01:43:31]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater assets. So I think we need to kind of emphasize that being an independent utility, we have the control over our
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06] [01:43:10] [01:43:13] [01:43:16] [01:43:20] [01:43:24] [01:43:24] [01:43:28] [01:43:28] [01:43:31] [01:43:34]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater assets. So I think we need to kind of emphasize that being an independent
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06] [01:43:10] [01:43:13] [01:43:16] [01:43:24] [01:43:24] [01:43:24] [01:43:24] [01:43:24] [01:43:34] [01:43:34] [01:43:34]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater assets. So I think we need to kind of emphasize that being an independent utility, we have the control over our decisions and budget to invest
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06] [01:43:10] [01:43:13] [01:43:16] [01:43:24] [01:43:24] [01:43:24] [01:43:24] [01:43:34] [01:43:34] [01:43:34] [01:43:36] [01:43:38] [01:43:38]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater assets. So I think we need to kind of emphasize that being an independent utility, we have the control over our decisions and budget to invest directly. And I think, you know, the pressures that have been arising in the. The last year in particular, have
[01:42:56] [01:42:58] [01:43:00] [01:43:02] [01:43:05] [01:43:06] [01:43:10] [01:43:13] [01:43:16] [01:43:20] [01:43:24] [01:43:24] [01:43:24] [01:43:34] [01:43:34] [01:43:38] [01:43:38] [01:43:38] [01:43:41] [01:43:42]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater assets. So I think we need to kind of emphasize that being an independent utility, we have the control over our decisions and budget to invest directly. And I think, you know, the pressures that have been arising in the. The last year in particular, have been hard on everybody. And so I think
[01:42:56] [01:42:58] [01:43:00] [01:43:05] [01:43:06] [01:43:08] [01:43:10] [01:43:10] [01:43:16] [01:43:20] [01:43:22] [01:43:24] [01:43:24] [01:43:28] [01:43:34] [01:43:34] [01:43:34] [01:43:34] [01:43:41] [01:43:42]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater assets. So I think we need to kind of emphasize that being an independent utility, we have the control over our decisions and budget to invest directly. And I think, you know, the pressures that have been arising in the. The last year in particular, have been hard on everybody. And so I think that's been feeding some of the
[01:42:56] [01:42:58] [01:43:00] [01:43:05] [01:43:06] [01:43:08] [01:43:10] [01:43:10] [01:43:16] [01:43:20] [01:43:22] [01:43:24] [01:43:24] [01:43:28] [01:43:34] [01:43:34] [01:43:34] [01:43:41] [01:43:42]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater assets. So I think we need to kind of emphasize that being an independent utility, we have the control over our decisions and budget to invest directly. And I think, you know, the pressures that have been arising in the. The last year in particular, have been hard on everybody. And so I think that's been feeding some of the frustration, those twofold. I remember
[01:42:56] [01:42:58] [01:43:00] [01:43:05] [01:43:06] [01:43:08] [01:43:10] [01:43:10] [01:43:16] [01:43:16] [01:43:22] [01:43:24] [01:43:24] [01:43:28] [01:43:36] [01:43:36] [01:43:36] [01:43:41] [01:43:42] [01:43:44] [01:43:46] [01:43:49]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater assets. So I think we need to kind of emphasize that being an independent utility, we have the control over our decisions and budget to invest directly. And I think, you know, the pressures that have been arising in the. The last year in particular, have been hard on everybody. And so I think that's been feeding some of the frustration, those twofold. I remember when we first formed the utility, it
[01:42:56] [01:42:58] [01:43:00] [01:43:05] [01:43:06] [01:43:08] [01:43:10] [01:43:10] [01:43:16] [01:43:16] [01:43:22] [01:43:24] [01:43:24] [01:43:28] [01:43:36] [01:43:36] [01:43:36] [01:43:41] [01:43:42] [01:43:49] [01:43:49] [01:43:53]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater assets. So I think we need to kind of emphasize that being an independent utility, we have the control over our decisions and budget to invest directly. And I think, you know, the pressures that have been arising in the. The last year in particular, have been hard on everybody. And so I think that's been feeding some of the frustration, those twofold. I remember when we first formed the utility, it was that the money goes into fixing
[01:42:56] [01:42:58] [01:43:00] [01:43:05] [01:43:06] [01:43:06] [01:43:10] [01:43:10] [01:43:16] [01:43:16] [01:43:20] [01:43:24] [01:43:24] [01:43:28] [01:43:34] [01:43:34] [01:43:41] [01:43:41] [01:43:42] [01:43:42] [01:43:43] [01:43:43] [01:43:43] [01:43:43] [01:43:43] [01:43:53] [01:43:53]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater assets. So I think we need to kind of emphasize that being an independent utility, we have the control over our decisions and budget to invest directly. And I think, you know, the pressures that have been arising in the. The last year in particular, have been hard on everybody. And so I think that's been feeding some of the frustration, those twofold. I remember when we first formed the utility, it was that the money goes into fixing the infrastructure and not as much
[01:42:56] [01:42:58] [01:43:00] [01:43:05] [01:43:06] [01:43:06] [01:43:10] [01:43:10] [01:43:16] [01:43:16] [01:43:20] [01:43:24] [01:43:24] [01:43:28] [01:43:36] [01:43:36] [01:43:36] [01:43:41] [01:43:41] [01:43:49] [01:43:55] [01:43:55] [01:43:57]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater assets. So I think we need to kind of emphasize that being an independent utility, we have the control over our decisions and budget to invest directly. And I think, you know, the pressures that have been arising in the. The last year in particular, have been hard on everybody. And so I think that's been feeding some of the frustration, those twofold. I remember when we first formed the utility, it was that the money goes into fixing the infrastructure and not as much into overhead. That's. But if the
[01:42:56] [01:42:58] [01:43:00] [01:43:05] [01:43:06] [01:43:06] [01:43:10] [01:43:10] [01:43:16] [01:43:16] [01:43:20] [01:43:24] [01:43:24] [01:43:28] [01:43:36] [01:43:36] [01:43:36] [01:43:41] [01:43:41] [01:43:41] [01:43:49] [01:43:55] [01:43:57] [01:43:59]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater assets. So I think we need to kind of emphasize that being an independent utility, we have the control over our decisions and budget to invest directly. And I think, you know, the pressures that have been arising in the. The last year in particular, have been hard on everybody. And so I think that's been feeding some of the frustration, those twofold. I remember when we first formed the utility, it was that the money goes into fixing the infrastructure and not as much into overhead. That's. But if the actual rate is also less, so you're
[01:42:56] [01:42:58] [01:43:00] [01:43:05] [01:43:06] [01:43:06] [01:43:10] [01:43:10] [01:43:13] [01:43:16] [01:43:20] [01:43:24] [01:43:24] [01:43:24] [01:43:34] [01:43:34] [01:43:34] [01:43:41] [01:43:42] [01:43:42] [01:43:43] [01:43:43] [01:43:53] [01:43:55] [01:43:59] [01:43:59] [01:44:02]	their tenants. If I could describe it so simply, more more is bad, but it's still less than it would be otherwise. I think that sometimes gets lost in communication and something we need to be better about communicating directly that, you know, we now have the ability to both analyze our own rates, decide how we invest. Prior to separating from the city, we were paying at that time about \$4 million a year. We were not getting the city's. You know, the city was not repairing our stormwater assets. So I think we need to kind of emphasize that being an independent utility, we have the control over our decisions and budget to invest directly. And I think, you know, the pressures that have been arising in the. The last year in particular, have been hard on everybody. And so I think that's been feeding some of the frustration, those twofold. I remember when we first formed the utility, it was that the money goes into fixing the infrastructure and not as much into overhead. That's. But if the

[01:44:05] explanation. Do you know offhand how

### Transcript of Regular Meeting on Nov 11, 2025 12:00pm Port of Seattle.

[01:44:07] much the [01:44:08] the city's rate is compared to Tacoma? [01:44:13] I don't have a comparison for the city [01:44:15] of Tacoma and city of Seattle. Handy. [01:44:18] Be interesting to know, I'm sure the [01:44:19] alliance would be interested as well. [01:44:22] All right. Thank you, Commissioner [01:44:24] Commissioner Cho. All [01:44:27] All right. With no further questions. [01:44:31] is there a motion and a second to [01:44:32] adopt item 10b? So moved. [01:44:36] Second. The [01:44:37] The motion was made and seconded. [01:44:39] Commissioners, is there any further [01:44:41] discussion or debate on this item? [01:44:44] Clerk Hart, please call the roll for [01:44:45] the vote. Commissioners, please say [01:44:47] aye or nay when your name is called. [01:44:49] Thank you. Beginning with Commissioner [01:44:50] Cho. Aye. Thank you. Commissioner [01:44:52] Fellman. Aye. Thank you. Commissioner [01:44:54] Calkins. Aye. Thank you. Three eyes. [01:44:56] Zero nays for this item. Thank you. [01:44:59] Thank you so much. Clerkhart, [01:45:03] Clerkhart, can you please read the [01:45:04] next item into the record and [01:45:06] Executive Director metric, will you [01:45:07] then introduce it? Thank you. This is [01:45:10] Agenda Item 10c. Introduction of the [01:45:12] Salary and Benefits Resolution Number [01:45:14] 3841, amending the policy directive [01:45:16] for salary and benefits for employees [01:45:18] not covered by a collective bargaining [01:45:20] agreement established by resolution [01:45:22] number 3831 and providing an effective [01:45:25] date for all amendments as of January [01:45:27] 1, 2026. [01:45:31] Commissioners, this item introduces [01:45:33] the 2026 Salary and Benefits [01:45:34] Resolution, which updates the Port's [01:45:37] overall framework for compensation and [01:45:38] benefits for non represented [01:45:40] employees. The resolution continues [01:45:42] the Port's commitment to maintaining [01:45:44] competitive, equitable and sustainable [01:45:46] pay and benefit structures that align [01:45:48] with our mission, market conditions [01:45:50] and organization organizational [01:45:51] values. Recommended updates Strengthen [01:45:53] leadership compensation frameworks, [01:45:55] refine benefit programs and enhance [01:45:57] clarity and transparency within the [01:45:59] policy directive. Together, these [01:46:01] adjustments ensure the Port remains [01:46:03] well positioned to attract and retain [01:46:05] exceptional talent in support of [01:46:07] operational excellence and long term [01:46:09] strategic goals. The briefers this [01:46:11] afternoon are Katie Gerard, the Senior [01:46:13] Director of Human Resources and Keisha [01:46:15] Reichstein, the Director of HR Total [01:46:18] Rewards. So I'll turn it over to Katie

	to begin, I believe. Thank you. Good
	afternoon, commissioners and Executive
	Director Metric. Again, Katie Girard,
	the Senior Director of Human
[01:46:27]	Resources. We are back again as we
[01:46:29]	come back every year. Last year, of
[01:46:31]	course, was the big change of
[01:46:33]	redesigning the entire non represented
[01:46:35]	compensation system. So this year
	we are making a few adjustments and
	using information that we've learned
	over this last year to make some small
	tweaks to the program. So I've got
	Keisha Reichstein here and she's going
	to go and walk through the slides with
	you today. Thank
	Thank you, Katie. Good afternoon,
	Commissioners. Next slide. Thank you.
[01:46:56]	So we're here to request introduction
	of Resolution 3841, the 2026 Salary
	and Benefits resolution. So
	So we'll review some background
	information with you and the
	recommended changes we're requesting
	this year. Next
	Next slide, please. Salary
	Salary and Benefits resolution updates
	the salary and Benefits Policy
	Directive, which specifies the pay and
	benefits for programs for non
	represented employees at the Port. Per
	Washington rcw,
	it's required that the Port Commission
	authorizes revisions to the pay and
	benefit programs that are part of the
	Port's overall total rewards package
	for the non represented employees.
	As Katie stated, this year's changes
	include the regular updates to the
	resolution including an adjustment to
	the pay range structure and other
	recommendations. Include two new pay
	grades for the Port's public safety
	leadership positions.
	Next slide please. So
	So the pay ranges at the Port reflect
	the minimum and maximum amounts that
	the Port pays to employees whose jobs
	are assigned to a particular grade.
	The salary ranges represent what
	employers are paying in the market for
	similar work and they're reviewed
	annually against data from external
[01.40.12]	salary budgeting surveys and the
[01.40.13]	Bureau of Labor Statistics to
	determine if an adjustment's needed.
	This year we're recommending a 3.48%
	increase to the ranges for the non
	represented employees.
[01:48:30]	Employees whose pay is less than the new minimum of their pay range will
	receive an automatic base pay increase to that new minimum of the pay range
	TO THE DOWN THE INTERPRETATION OF THE DOWN TONGS

[01:48:40] effective January 1, 2026. [01:48:44] Unless an employee's pay is below the [01:48:45] minimum of the pay range, they will [10:48:47] not receive an automatic increase [01:48:49] equal to the pay range increase. [01:48:53] Next slide please. Shown [01:48:58] recommended pay ranges for the 2026 [01:49:01] Non Represented Grade salary range [01:49:03] structure and the ranges are expressed [01:49:04] in both hourly and annual rates. [01:49:13] These are the seven pay grades and [01:49:13] These are the seven pay grades and [01:49:13] Trecommended pay ranges in the 2026 non [01:49:13] recommended pay ranges in the 2026 non [01:49:13] recommended pay ranges in the 2026 non [01:49:13] sexecutive leadership. [01:49:23] sexecutive leadership. [01:49:23] Next slide. We're [01:49:33] We're recommending a change for non [01:49:33] represented leadership roles in the [01:49:33] Ports, police and Fire departments. [01:49:33] In recent years there has been a [01:49:40] challenge to fill vacancies at the [01:49:41] implementation implementation of the [01:49:43] including Deputy Chief of Police, [01:49:51] Chief of Police, Assistant Fire [01:49:57] the 20 grade salary range structure in [01:49:57] the 20 grade salary range structure in [01:50:02] represented employees. [01:50:04] We found that this broadened a salary [01:50:05] compression issue between the Deputy [01:50:01] direct report roles that are [01:50:11] direct report roles that are [01:50:12] represented by collective bargaining [01:50:13] within the Port, reduce [01:50:24] reduce or eliminate the salary [01:50:26] compression issue now and ongoing and [01:50:27] within the Port, reduce [01:50:38] roles in the pay ranges shown [01:50:39] Next slide, please. We're [01:50:39] Next slide, please. We're [01:50:30] Ve're recommending a change to the [01:50:40] designated as non assessed jobs. The [01:50:55] and that will take effect in January [01:50:55] not pay ranges are based on a 10% [01:50:55] Next slide, please. We're [01:51:04] definition of temporary	
[01:48:45] minimum of the pay range, they will [01:48:47] not receive an automatic increase [01:48:49] equal to the pay range increase. [01:48:53] Next slide please. Shown [01:48:56] Shown Here are the 20 grades and [01:48:58] recommended pay ranges for the 2026 [01:49:01] Non Represented Grade salary range [01:49:03] structure and the ranges are expressed [01:49:03] structure and the ranges are expressed [01:49:11] Next slide. These [01:49:13] These are the seven pay grades and [01:49:13] These are the seven pay grades and [01:49:13] recommended pay ranges in the 2026 non [01:49:13] representation grade salary range [01:49:20] structure for the positions assigned [01:49:23] as Executive leadership. [01:49:23] Next slide. We're [01:49:33] We're recommending a change for non [01:49:33] represented leadership roles in the [01:49:33] In recent years there has been a [01:49:33] In recent years there has been a [01:49:40] challenge to fill vacancies at the [01:49:44] implementation implementation of the [01:49:44] including Deputy Chief of Police, [01:49:51] Chief of Police, Assistant Fire [01:49:51] Chief of Police, Assistant Fire [01:49:51] Chief and Fire Chief were moved into [01:49:57] the 20 grade salary range structure in [01:50:00] the standard pay policies for non [01:50:00] compression issue between the Deputy [01:50:01] direct report roles that are [01:50:11] direct report roles that are [01:50:12] represented by collective bargaining [01:50:13] we spent this year reviewing the [01:50:13] issues and considering options that [01:50:20] support the promotional pathways [01:50:33] non represented roles. [01:50:33] non represented orles. [01:50:40] designated as non assessed jobs. The [01:50:40] designated as non assessed jobs. The [01:50:53] suting base pay for the incumbents [01:50:55] and that will take effect in January [01:50:55] and that will take effect in Janua	[01:48:40] effective January 1, 2026.
[01:48:47] not receive an automatic increase [01:48:49] equal to the pay range increase. [01:48:53] Next slide please. Shown [01:48:56] Shown Here are the 20 grades and [01:48:58] recommended pay ranges for the 2026 [01:49:01] Non Represented Grade salary range [01:49:03] structure and the ranges are expressed [01:49:03] structure and the ranges are expressed [01:49:03] These are the seven pay grades and [01:49:13] These are the seven pay grades and [01:49:13] These are the seven pay grades and [01:49:13] representation grade salary range [01:49:20] structure for the positions assigned [01:49:23] as Executive leadership. [01:49:23] as Executive leadership. [01:49:33] represented leadership roles in the [01:49:33] represented leadership roles in the [01:49:33] represented leadership roles in the [01:49:33] In recent years there has been a [01:49:34] challenge to fill vacancies at the [01:49:44] implementation implementation of the [01:49:44] implementation implementation of the [01:49:49] including Deputy Chief of Police, [01:49:54] Chief and Fire Chief were moved into [01:49:57] the 20 grade salary range structure in [01:50:00] the standard pay policies for non [01:50:02] represented employees. [01:50:04] We found that this broadened a salary [01:50:09] Chiefs, Assistant Chiefs and their [01:50:14] agreements. We [01:50:15] We spent this year reviewing the [01:50:17] issues and considering options that [01:50:20] within the Port, reduce [01:50:31] orn performance methodology for the [01:50:33] non represented or policy for [01:50:34] represented direct report roles. [01:50:40] We flow and salary and salary [01:50:26] compression issue now and ongoing and [01:50:40] designated as non assessed jobs. The [01:50:33] non represented direct report roles. [01:50:33] non represented orles. [01:50:34] rapy ranges are based on a 10% [01:50:40] designated as non assessed jobs. The [01:50:55] and that will take effect in January [01:50:55] in the pay ranges shown [01:50:55] in the pay ranges shown [01:50:55] in the pay ran	
[01:48:49] equal to the pay range increase. [01:48:53] Next slide please. Shown [01:48:58] recommended pay ranges for the 2026 [01:49:01] Non Represented Grade salary range [01:49:03] structure and the ranges are expressed [01:49:06] in both hourly and annual rates. [01:49:11] Next slide. These [01:49:13] These are the seven pay grades and [01:49:13] These are the seven pay grades and [01:49:13] These are the seven pay grades and [01:49:13] representation grade salary range [01:49:20] structure for the positions assigned [01:49:21] as Executive leadership. [01:49:23] as Executive leadership. [01:49:31] We're recommending a change for non [01:49:33] represented leadership roles in the [01:49:33] Ports, police and Fire departments. [01:49:33] In recent years there has been a [01:49:40] challenge to fill vacancies at the [01:49:41] implementation implementation of the [01:49:42] leadership levels with the [01:49:43] including Deputy Chief of Police, [01:49:51] Chief of Police, Assistant Fire [01:49:51] Chief and Fire Chief were moved into [01:49:57] the 20 grade salary range structure in [01:50:00] the standard pay policies for non [01:50:02] represented employees. [01:50:04] We found that this broadened a salary [01:50:05] compression issue between the Deputy [01:50:01] direct report roles that are [01:50:11] direct report roles that are [01:50:12] represented by collective bargaining [01:50:13] We spent this year reviewing the [01:50:14] agreements. We [01:50:15] We spent this year reviewing the [01:50:22] within the Port, reduce [01:50:33] non represented by collective bargaining [01:50:03] non represented by collective bargaining [01:50:04] represented by collective bargaining [01:50:31] for performance methodology for the [01:50:33] non represented roles. [01:50:34] represented direct report roles [01:50:34] represented direct report roles. [01:50:35] way ranges are based on a 10% [01:50:36] so we're recommending to place the [01:50:46] differential to the base pay for the [01:50:55] and that will take effect	
[01:48:56] Shown Here are the 20 grades and [01:48:56] Shown Here are the 20 grades and [01:48:56] Shown Here are the 20 grades and [01:48:56] recommended pay ranges for the 2026 [01:49:01] Non Represented Grade salary range [01:49:03] structure and the ranges are expressed [01:49:06] in both hourly and annual rates. [01:49:11] Next slide. These [01:49:13] These are the seven pay grades and [01:49:15] recommended pay ranges in the 2026 non [01:49:18] representation grade salary range [01:49:20] structure for the positions assigned [01:49:23] as Executive leadership. [01:49:28] Next slide. We're [01:49:28] Next slide. We're [01:49:31] We're recommending a change for non [01:49:33] represented leadership roles in the [01:49:35] Ports, police and Fire departments. [01:49:38] In recent years there has been a [01:49:40] challenge to fill vacancies at the [01:49:40] challenge to fill vacancies at the [01:49:41] including Deputy Chief of Police, [01:49:42] leadership levels with the [01:49:45] Chief and Fire Chief were moved into [01:49:51] Chief of Police, Assistant Fire [01:49:54] Chief and Fire Chief were moved into [01:49:57] the 20 grade salary range structure in [01:50:00] represented employees. [01:50:04] We found that this broadened a salary [01:50:04] We found that this broadened a salary [01:50:05] Compression issue between the Deputy [01:50:11] direct report roles that are [01:50:12] represented by collective bargaining [01:50:14] agreements. We [01:50:15] We spent this year reviewing the [01:50:22] within the Port, reduce [01:50:23] support the promotional pathways [01:50:24] reduce or eliminate the salary [01:50:33] non represented roles. [01:50:33] non represented orles. [01:50:33] non represented orles. [01:50:33] non represented direct report roles. [01:50:43] pay ranges are based on a 10% [01:50:46] differential to the base pay for the [01:50:46] differential to the base pay for t	
[01:48:56] Shown Here are the 20 grades and [01:48:58] recommended pay ranges for the 2026 [01:49:01] Non Represented Grade salary range [01:49:03] structure and the ranges are expressed [01:49:06] in both hourly and annual rates. [01:49:11] Next slide. These [01:49:13] These are the seven pay grades and [01:49:13] Trecommended pay ranges in the 2026 non [01:49:13] recommended pay ranges in the 2026 non [01:49:13] representation grade salary range [01:49:20] structure for the positions assigned [01:49:23] as Executive leadership. The [01:50:48] represented direct report roles. [01:50:48] represented direct report roles. [01:50:55] and that will take effect in January [01:50:50] Next slide, please. We're [01:51:03] We're recommending a change to the [01:51:04] definition of temporary assignment. [01:51:07] This change will be included in the [01:51:08] salary and benefit policy directive,	
[01:50:00] the standard pay policies for non [01:50:02] represented employees. [01:50:04] We found that this broadened a salary [01:50:06] compression issue between the Deputy [01:50:09] Chiefs, Assistant Chiefs and their [01:50:11] direct report roles that are [01:50:12] represented by collective bargaining [01:50:14] agreements. We [01:50:15] We spent this year reviewing the [01:50:17] issues and considering options that [01:50:20] support the promotional pathways [01:50:22] within the Port, reduce [01:50:24] reduce or eliminate the salary [01:50:26] compression issue now and ongoing and [01:50:29] maintain alignment to the Port's pay [01:50:31] for performance methodology for the [01:50:33] non represented roles. [01:50:38] So we're recommending to place the [01:50:40] designated as non assessed jobs. The [01:50:40] designated as non assessed jobs. The [01:50:48] represented direct report roles. [01:50:48] represented direct report roles. [01:50:55] We'll establish a new policy for [01:50:55] and that will take effect in January [01:50:56] of 2026. [01:50:59] Next slide, please. We're [01:51:03] We're recommending a change to the [01:51:04] definition of temporary assignment. [01:51:07] This change will be included in the [01:51:08] salary and benefit policy directive,	
[01:50:02] represented employees. [01:50:04] We found that this broadened a salary [01:50:06] compression issue between the Deputy [01:50:09] Chiefs, Assistant Chiefs and their [01:50:11] direct report roles that are [01:50:12] represented by collective bargaining [01:50:14] agreements. We [01:50:15] We spent this year reviewing the [01:50:17] issues and considering options that [01:50:20] support the promotional pathways [01:50:22] within the Port, reduce [01:50:24] reduce or eliminate the salary [01:50:29] maintain alignment to the Port's pay [01:50:29] maintain alignment to the Port's pay [01:50:33] nor represented roles. [01:50:33] So we're recommending to place the [01:50:38] roles in the pay ranges shown [01:50:40] designated as non assessed jobs. The [01:50:43] pay ranges are based on a 10% [01:50:48] represented direct report roles. [01:50:49] we'll establish a new policy for [01:50:53] setting base pay for the incumbents [01:50:55] and that will take effect in January [01:50:56] of 2026. [01:50:59] Next slide, please. We're [01:51:04] definition of temporary assignment. [01:51:07] This change will be included in the [01:51:08] salary and benefit policy directive,	
[01:50:04] We found that this broadened a salary [01:50:06] compression issue between the Deputy [01:50:09] Chiefs, Assistant Chiefs and their [01:50:11] direct report roles that are [01:50:12] represented by collective bargaining [01:50:14] agreements. We [01:50:15] We spent this year reviewing the [01:50:17] issues and considering options that [01:50:20] support the promotional pathways [01:50:22] within the Port, reduce [01:50:24] reduce or eliminate the salary [01:50:26] compression issue now and ongoing and [01:50:29] maintain alignment to the Port's pay [01:50:33] nor represented roles. [01:50:33] roles in the pay ranges shown [01:50:40] designated as non assessed jobs. The [01:50:43] pay ranges are based on a 10% [01:50:48] represented direct report roles. [01:50:48] represented direct report roles. [01:50:51] We'll establish a new policy for [01:50:53] setting base pay for the incumbents [01:50:55] and that will take effect in January [01:50:59] Next slide, please. We're [01:51:03] We're recommending a change to the [01:51:04] definition of temporary assignment. [01:51:07] This change will be included in the [01:51:08] salary and benefit policy directive,	
[01:50:06] compression issue between the Deputy [01:50:09] Chiefs, Assistant Chiefs and their [01:50:11] direct report roles that are [01:50:12] represented by collective bargaining [01:50:14] agreements. We [01:50:15] We spent this year reviewing the [01:50:17] issues and considering options that [01:50:20] support the promotional pathways [01:50:22] within the Port, reduce [01:50:24] reduce or eliminate the salary [01:50:26] compression issue now and ongoing and [01:50:29] maintain alignment to the Port's pay [01:50:31] for performance methodology for the [01:50:33] non represented roles. [01:50:38] roles in the pay ranges shown [01:50:40] designated as non assessed jobs. The [01:50:40] designated as non assessed jobs. The [01:50:48] represented direct report roles. [01:50:48] represented direct report roles. [01:50:51] We'll establish a new policy for [01:50:53] setting base pay for the incumbents [01:50:55] and that will take effect in January [01:50:56] of 2026. [01:50:59] Next slide, please. We're [01:51:04] definition of temporary assignment. [01:51:07] This change will be included in the [01:51:08] salary and benefit policy directive,	
[01:50:11] direct report roles that are [01:50:12] represented by collective bargaining [01:50:14] agreements. We [01:50:15] We spent this year reviewing the [01:50:17] issues and considering options that [01:50:20] support the promotional pathways [01:50:22] within the Port, reduce [01:50:24] reduce or eliminate the salary [01:50:26] compression issue now and ongoing and [01:50:29] maintain alignment to the Port's pay [01:50:31] for performance methodology for the [01:50:33] non represented roles. [01:50:38] roles in the pay ranges shown [01:50:40] designated as non assessed jobs. The [01:50:43] pay ranges are based on a 10% [01:50:48] represented direct report roles. [01:50:48] represented direct report roles. [01:50:51] We'll establish a new policy for [01:50:53] setting base pay for the incumbents [01:50:55] and that will take effect in January [01:50:56] of 2026. [01:50:59] Next slide, please. We're [01:51:04] definition of temporary assignment. [01:51:07] This change will be included in the [01:51:08] salary and benefit policy directive,	
[01:50:12] represented by collective bargaining [01:50:14] agreements. We [01:50:15] We spent this year reviewing the [01:50:17] issues and considering options that [01:50:20] support the promotional pathways [01:50:22] within the Port, reduce [01:50:24] reduce or eliminate the salary [01:50:26] compression issue now and ongoing and [01:50:29] maintain alignment to the Port's pay [01:50:31] for performance methodology for the [01:50:33] non represented roles. [01:50:38] roles in the pay ranges shown [01:50:40] designated as non assessed jobs. The [01:50:43] pay ranges are based on a 10% [01:50:48] represented direct report roles. [01:50:48] represented direct report roles. [01:50:53] We'll establish a new policy for [01:50:53] setting base pay for the incumbents [01:50:55] and that will take effect in January [01:50:56] of 2026. [01:50:59] Next slide, please. We're [01:51:03] We're recommending a change to the [01:51:04] definition of temporary assignment. [01:51:07] This change will be included in the [01:51:08] salary and benefit policy directive,	[01:50:09] Chiefs, Assistant Chiefs and their
[01:50:14] agreements. We [01:50:15] We spent this year reviewing the [01:50:17] issues and considering options that [01:50:20] support the promotional pathways [01:50:22] within the Port, reduce [01:50:24] reduce or eliminate the salary [01:50:26] compression issue now and ongoing and [01:50:29] maintain alignment to the Port's pay [01:50:31] for performance methodology for the [01:50:33] non represented roles. [01:50:36] So we're recommending to place the [01:50:38] roles in the pay ranges shown [01:50:40] designated as non assessed jobs. The [01:50:43] pay ranges are based on a 10% [01:50:48] represented direct report roles. [01:50:48] represented direct report roles. [01:50:51] We'll establish a new policy for [01:50:53] setting base pay for the incumbents [01:50:55] and that will take effect in January [01:50:56] of 2026. [01:50:59] Next slide, please. We're [01:51:03] We're recommending a change to the [01:51:04] definition of temporary assignment. [01:51:07] This change will be included in the [01:51:08] salary and benefit policy directive,	
[01:50:15] We spent this year reviewing the [01:50:17] issues and considering options that [01:50:20] support the promotional pathways [01:50:22] within the Port, reduce [01:50:24] reduce or eliminate the salary [01:50:26] compression issue now and ongoing and [01:50:29] maintain alignment to the Port's pay [01:50:31] for performance methodology for the [01:50:33] non represented roles. [01:50:36] So we're recommending to place the [01:50:38] roles in the pay ranges shown [01:50:40] designated as non assessed jobs. The [01:50:43] pay ranges are based on a 10% [01:50:46] differential to the base pay for the [01:50:48] represented direct report roles. [01:50:51] We'll establish a new policy for [01:50:55] and that will take effect in January [01:50:55] Next slide, please. We're [01:51:03] We're recommending a change to the [01:51:04] definition of temporary assignment. [01:51:07] This change will be included in the [01:51:08] salary and benefit policy directive,	[01:50:12] represented by collective bargaining
[01:50:17] issues and considering options that [01:50:20] support the promotional pathways [01:50:22] within the Port, reduce [01:50:24] reduce or eliminate the salary [01:50:26] compression issue now and ongoing and [01:50:29] maintain alignment to the Port's pay [01:50:31] for performance methodology for the [01:50:33] non represented roles. [01:50:36] So we're recommending to place the [01:50:38] roles in the pay ranges shown [01:50:40] designated as non assessed jobs. The [01:50:43] pay ranges are based on a 10% [01:50:46] differential to the base pay for the [01:50:48] represented direct report roles. [01:50:51] We'll establish a new policy for [01:50:53] setting base pay for the incumbents [01:50:55] and that will take effect in January [01:50:56] of 2026. [01:50:59] Next slide, please. We're [01:51:03] We're recommending a change to the [01:51:04] definition of temporary assignment. [01:51:07] This change will be included in the [01:51:08] salary and benefit policy directive,	
[01:50:20] support the promotional pathways [01:50:22] within the Port, reduce [01:50:24] reduce or eliminate the salary [01:50:26] compression issue now and ongoing and [01:50:29] maintain alignment to the Port's pay [01:50:31] for performance methodology for the [01:50:33] non represented roles. [01:50:36] So we're recommending to place the [01:50:38] roles in the pay ranges shown [01:50:40] designated as non assessed jobs. The [01:50:43] pay ranges are based on a 10% [01:50:46] differential to the base pay for the [01:50:48] represented direct report roles. [01:50:51] We'll establish a new policy for [01:50:53] setting base pay for the incumbents [01:50:55] and that will take effect in January [01:50:56] of 2026. [01:50:59] Next slide, please. We're [01:51:03] We're recommending a change to the [01:51:04] definition of temporary assignment. [01:51:07] This change will be included in the [01:51:08] salary and benefit policy directive,	
[01:50:22] within the Port, reduce [01:50:24] reduce or eliminate the salary [01:50:26] compression issue now and ongoing and [01:50:29] maintain alignment to the Port's pay [01:50:31] for performance methodology for the [01:50:33] non represented roles. [01:50:36] So we're recommending to place the [01:50:38] roles in the pay ranges shown [01:50:40] designated as non assessed jobs. The [01:50:43] pay ranges are based on a 10% [01:50:46] differential to the base pay for the [01:50:48] represented direct report roles. [01:50:51] We'll establish a new policy for [01:50:53] setting base pay for the incumbents [01:50:55] and that will take effect in January [01:50:56] of 2026. [01:50:59] Next slide, please. We're [01:51:03] We're recommending a change to the [01:51:04] definition of temporary assignment. [01:51:07] This change will be included in the [01:51:08] salary and benefit policy directive,	
[01:50:24] reduce or eliminate the salary [01:50:26] compression issue now and ongoing and [01:50:29] maintain alignment to the Port's pay [01:50:31] for performance methodology for the [01:50:33] non represented roles. [01:50:36] So we're recommending to place the [01:50:38] roles in the pay ranges shown [01:50:40] designated as non assessed jobs. The [01:50:43] pay ranges are based on a 10% [01:50:46] differential to the base pay for the [01:50:48] represented direct report roles. [01:50:51] We'll establish a new policy for [01:50:53] setting base pay for the incumbents [01:50:55] and that will take effect in January [01:50:56] of 2026. [01:50:59] Next slide, please. We're [01:51:03] We're recommending a change to the [01:51:04] definition of temporary assignment. [01:51:07] This change will be included in the [01:51:08] salary and benefit policy directive,	
[01:50:26] compression issue now and ongoing and [01:50:29] maintain alignment to the Port's pay [01:50:31] for performance methodology for the [01:50:33] non represented roles. [01:50:36] So we're recommending to place the [01:50:38] roles in the pay ranges shown [01:50:40] designated as non assessed jobs. The [01:50:43] pay ranges are based on a 10% [01:50:46] differential to the base pay for the [01:50:48] represented direct report roles. [01:50:51] We'll establish a new policy for [01:50:53] setting base pay for the incumbents [01:50:55] and that will take effect in January [01:50:56] of 2026. [01:50:59] Next slide, please. [01:51:04] definition of temporary assignment. [01:51:07] This change will be included in the [01:51:08] salary and benefit policy directive,	
[01:51:07] This change will be included in the [01:51:08] salary and benefit policy directive,	
[01:51:08] salary and benefit policy directive,	

[01:51:12] documentation. We feel that removing

[01:51:15] the six month maximum extension allows
[01:51:18] us to review and approve temporary
[01:51:19] assignment requests based on situation
[01:51:22] and need and remove some unnecessary
[01:51:24] administrative steps.
[01:51:27] We're recommending to include the
[01:51:29] benefit savings account within the
[01:51:31] benefits offered to employees. This is
[01:51:34] an established benefit program. It
[01:51:36] includes our flexible spending
[01:51:38] accounts, Health Savings Accounts, and
[01:51:40] lifestyle accounts. The addition
[01:51:42] ensures that the port's salary and
[01:51:44] benefits policy directive aligns to
[01:51:47] the benefits that we're providing
[01:51:48] employees. And
[01:51:50] And lastly, we are requesting
[01:51:52] authorization to
[01:51:53] to research and establish a Voluntary
[01:51:56] Employees Beneficiary Association
[01:51:59] Trust, or veba that will offer and
[01:52:02] administer a Health Reimbursement
[01:52:04] Arrangement Plan or HRA
[01:52:06] for port employees to receive
[01:52:08] reimbursement for qualified health
[01:52:10] care expenses in their retirement. The
[01:52:14] trust will be funded by employees
[01:52:16] contributing their unused accrued paid
[01:52:18] savings sick leave upon retirement.
[01:52:23] Next slide, please. We
[01:52:25] We estimate the cost to implement the
[01:52:27] 2026 pay ranges to be approximately
[01:52:30] \$33,000 based on 15 employees that
[01:52:33] will have a base pay increase to the
[01:52:35] new minimum of their salary grade
[01:52:37] range. The
[01:52:39] The cost to implement the new pay
[01:52:41] grades for police and fire leadership
[01:52:43] is estimated to be under a \$130,000.
[01:52:47] Each of the three deputy chiefs of
[01:52:49] police and two assistant fire chiefs
[01:52:52] will receive a pay adjustment with the
[01:52:54] new policy for setting pay within that
[01:52:57] new pay range. So
[01:53:00] So this completes our recommendations
[01:53:03] and requests. So we're here to answer
[01:53:05] any questions. Thank
[01:53:07] Thank you, Keisha. Commissioners,
[01:53:09] Commissioners, any questions at this
[01:53:11] time? Go
[01:53:14] Go ahead. Commissioner Feldman.
[01:53:17] So how many openings are there? Is it.
[01:53:20] It's just you're saying this would
[01:53:21] apply currently only to like three
[01:53:23] police and two fire. Was that that
[01:53:25] last slide? Currently
[01:53:27] Currently positions
[01:53:28] positions that have currently held. So
[01:53:30] yeah, if we implement the new ranges,
[01:53:32] it will be for our two chiefs. So the
[01:53:34] fire chief and chief of police and
[01:53:36] then the five other leaders,

[01:53:37] leadership roles, the deputies and [01:53:38] assistants. Do [01:53:40] Do we have vacancies? We do not. [01:53:44] All right, thank you. So [01:53:54] So moved. Second [01:53:57] motion was made and seconded. Any [01:53:59] further discussion or debate on [01:54:01] Saturday, please [01:54:04] please call the roll for the vote. [01:54:05] Commissioners, please say aye or nay [01:54:07] when your name is. Thank [01:54:09] Thank you. Beginning with Commissioner [01:54:10] Cho. Aye. Thank you, Commissioner [01:54:12] Fellamith. Aye. [01:54:13] Aye. Thank you. Commissioner Calkins. [01:54:16] Aye. Thank you. Three eyes. Zero. Nice [01:54:19] for this item. All [01:54:20] All right. With that, the motion [01:54:22] passes. Thank you so much. [01:54:26] We have no presentations or staff port [01:54:29] reports today. So with that, our [01:54:31] business meeting agenda is concluded. [01:54:34] Are there any closing remarks at this [01:54:35] time or motions relating to committee [01:54:37] referrals from commissioners? Mr. [01:54:39] Commission Vice President, I just [01:54:41] wanted to note just for clarity that [01:54:43] that was on introduction. So that [01:54:45] resolution will be back for adoption [01:54:47] on November 18th. Thank you for the [01:54:49] clarification, Commissioner [01:54:51] Commissioner Cho. Yeah. Just to say [01:54:53] happy Veterans Day to everyone within [01:54:56] the port, including [01:54:58] our very own executive Dr. Metruck or [01:55:01] rear admiral. And [01:55:03] And I think it was in your note that [01:55:06] you had mentioned that 16% of port [01:55:08] employees are veterans. And so that's [01:55:11] a significant portion [01:55:12] portion of our organization. We're [01:55:15] very proud of that. We [01:55:16] We obviously value our veterans [01:55:19] tremendously, not just within our [01:55:21] organization, but also in the bar [01:55:22] community. And I also want to give a [01:55:24] shout out to the military veterans at [01:55:27] the port, MVP erg who continue to [01:55:31] represent the veterans well within [01:55:33] organizations. Any [01:55:37] Any commissioner comments since it's a [01:55:39] short meeting? I had a couple [01:55:43] actually. So I did want to [01:55:46] appreciate executive metrics [01:55:48] recognition of both Veterans Day as [01:55:51] well as Native American Heritage [01:55:53] Month. And the [01:55:56] the not only have we [01:55:58] included the land recognition, we've

[01:56:01] hired a tribal

[01:56:03] tribal liaison as well as

[01:56:07] having these MOUs. And now I'm really [01:56:10] delighted that we're going to to be

[01:56:12] helping host the NCAI National [01:56:15] Gathering of Native Americans. So I [01:56:16] think that really appreciate [01:56:18] reflecting our growing support for our [01:56:21] neighboring tribes. And [01:56:24] And my dad was a World War II vet and [01:56:27] my mom just turned 100 and part of [01:56:30] going over to her house was looking at [01:56:33] these daily correspondence between her [01:56:36] and my dad. And it's just remarkable. [01:56:40] I think actually my dad wrote a lot [01:56:41] more than my mom did, but he had more [01:56:43] time on his hands, I think. But [01:56:45] But it's just extraordinary that this. [01:56:48] There are very few folks left. My [01:56:49] dad's been gone 10 years, but the fact [01:56:52] that she still stands to recognize [01:56:54] that and the fact that she has these [01:56:56] archives, it was pretty extraordinary [01:56:58] actually. So I greatly appreciate [01:57:00] that. I had a couple of other moments [01:57:02] to to recognize [01:57:07] this is the time of year our killer [01:57:09] whales show up in Puget Sound. They've [01:57:11] been here since September. [01:57:14] Yesterday, all three pods showed up. [01:57:17] We have a super pod in Puget Sound, [01:57:19] which is an extraordinary thing. The [01:57:20] entire population of some 74 [01:57:23] individuals are here. So if you see [01:57:24] them, that's great. You can report [01:57:27] sightings, but don't run them over. We [01:57:29] do have bad [01:57:31] bad news that our most Recent calf [01:57:35] from J64 J42 has officially not made [01:57:39] it. A lot of times the first calf of a [01:57:42] female is the worst likely to survive [01:57:45] because they're full of pollution in [01:57:48] them. And the mom dissolves her [01:57:50] blubber to feed the calf [01:57:53] so they get the big dose of PCBs. [01:57:56] Fortunately, as you can see in our [01:57:58] thing, we're spending like \$400 [01:58:00] million allocation for cleanup. A lot [01:58:02] of this is PCBs which is the [01:58:04] persisting chemical that our whales [01:58:07] are most impacted by. If you go down [01:58:10] to California, those killer whales, [01:58:11] Bella Berry looks more like ddt. So [01:58:14] you can see the, you are what you eat. [01:58:16] You can see that cline in differences [01:58:18] in distribution. So anyway, so the [01:58:21] whales are here, here. They've been [01:58:23] here since September. It's like two [01:58:24] months. I'm disappointed to say there [01:58:26] is still not a siting contract out [01:58:29] there, despite [01:58:30] despite the port and the Seaport [01:58:31] Alliance's ongoing support for that [01:58:33] work. And then finally I was really [01:58:36] hoping that today's meeting we were [01:58:39] going to pass

[01:58:40] pass a resolution to deal with going

[01-50-42]	forward with the potential permanent
	protection of SEATAC park, which was
	a commission resolution back in
	October of 2024.
	And in that I just see that we were
	at that point talking about at a
	minimum of 55 acres of the park and
[01:59:00]	that these, and
[01:59:02]	and that this evaluation of how to do
[01:59:04]	this was going to be done by Q1 of
[01:59:06]	2025 and that the commission would
[01:59:08]	then be briefed and to provide
	guidance on the Commission, the
	executive's preferred alternative
	by Q3 of this year. So
	what I believe in its progress is
	occurring that there is
	a preferred path forward that I'm
	personally supportive of. But the
	commission has not been informed of
	the various aspects of it. And
	according to the previous resolution,
	we need to all be familiar with it and
	then to sort of give
	give the go ahead. And
[01:59:43]	And so understanding the constraints
[01:59:46]	and the goals of the King County
[01:59:49]	Conservation Futures Fund, which is
[01:59:50]	what my understanding is we're in
[01:59:52]	looking at pursuing, there is
	questions as to what it does and how
	well it does it. So I'm hoping by next
	meeting the
	the commission staff will commission
	will be aware
	aware of the potential of doing this
	and, and you know, it requires that
	none of the land is developable
	and that we have, you know, market
	assessment of the property and that we
	still, you know, even if they apply
	for a grant, if we don't get a return
	that we're happy with, we're not
	obligated to sell it, but we've gone
[02:00:24]	through all this effort to be able to
	have the FAA exemption, but we have to
[02:00:28]	basically give SEATAC a letter that
[02:00:31]	says it's available.
[02:00:33]	They can't apply for a grant unless
	it's for sale. And so while we're not
	obligated to sell it, we have to at
	least allow them to apply for the
	grant. So I believe it's
	obligation on the Commission to be able to feel comfortable that this is
	a path that you would like to pursue.
	So I'm hoping that you guys can have a
	chance to be the briefed here or in
	public session. But I think it's a
[02:01:00]	vote that we need to to be
	all on the same page. It's a message
[02:01:04]	that gives the executive wind in his
	sails but also communicates to our

	constituents that we continue to make
	progress or not. Executive
	Executive Director Metruck Any closing
	comments? I
	I want to thank the Commission for
	their support
	support of the whole budget process
	that we've closely culminating next
	week. I appreciate all the feedback in
	the months of work, work that's been
	put in by the staff as we were talking
	about in order to do that, but also
	the commission staff as well and all
	of you. We've
	We've started talking about the budget
	earlier and earlier. I think that
	served us well in doing that and
	getting us to the position on the
	budget where
	where we're ready to go when we get to
	this point. I deeply appreciate the
	feedback and thoughts about
	the way forward as we drive towards
	that that meeting in March. We'll look
	forward into the future and
	participate. I
	I deeply appreciate the feedback on
	the tax levy and how we should fit
	that into all of our plans, our plans of finance for the future and how to
	•
	accomplish what we want to accomplish within the timeframes. So I'm really
	thankful for that. And thanks for your
	notes on veterans. I think they're a
[02:02:18]	great the
[02:02:18] [02:02:20]	great the the nation owes them a lot. So I
[02:02:18] [02:02:20] [02:02:21]	great the the nation owes them a lot. So I deeply appreciate the appreciation for
[02:02:18] [02:02:20] [02:02:21] [02:02:24]	great the the nation owes them a lot. So I deeply appreciate the appreciation for veterans. That's
[02:02:18] [02:02:20] [02:02:21] [02:02:24] [02:02:25]	great the the nation owes them a lot. So I deeply appreciate the appreciation for veterans. That's That's it. Thank you very much. All
[02:02:18] [02:02:20] [02:02:21] [02:02:24] [02:02:25] [02:02:27]	great the the nation owes them a lot. So I deeply appreciate the appreciation for veterans. That's That's it. Thank you very much. All right. My only comment is to wish bon
[02:02:18] [02:02:20] [02:02:21] [02:02:24] [02:02:25] [02:02:27] [02:02:30]	great the the nation owes them a lot. So I deeply appreciate the appreciation for veterans. That's That's it. Thank you very much. All
[02:02:18] [02:02:20] [02:02:21] [02:02:24] [02:02:25] [02:02:27] [02:02:30] [02:02:31]	great the the nation owes them a lot. So I deeply appreciate the appreciation for veterans. That's That's it. Thank you very much. All right. My only comment is to wish bon voyage to our colleague Commissioner Cho who leaves tomorrow for Belem,
[02:02:18] [02:02:20] [02:02:21] [02:02:24] [02:02:25] [02:02:27] [02:02:30] [02:02:34]	great the the nation owes them a lot. So I deeply appreciate the appreciation for veterans. That's That's it. Thank you very much. All right. My only comment is to wish bon voyage to our colleague Commissioner
[02:02:18] [02:02:20] [02:02:21] [02:02:24] [02:02:25] [02:02:30] [02:02:31] [02:02:34] [02:02:37]	great the the nation owes them a lot. So I deeply appreciate the appreciation for veterans. That's That's it. Thank you very much. All right. My only comment is to wish bon voyage to our colleague Commissioner Cho who leaves tomorrow for Belem, Brazil to represent the port and quite honestly be
[02:02:18] [02:02:20] [02:02:21] [02:02:24] [02:02:25] [02:02:30] [02:02:31] [02:02:34] [02:02:38]	great the the nation owes them a lot. So I deeply appreciate the appreciation for veterans. [02:02:18] [02:02:20] [02:02:24] [02:02:25] [02:02:27] [02:02:30] [02:02:31] [02:02:34] [02:02:34] [02:02:42] [02:02:43] [02:02:43] [02:02:48] [02:02:48] [02:02:50] [02:02:55] [02:02:55] [02:02:55]	great the the nation owes them a lot. So I deeply appreciate the appreciation for veterans. That's That's it. Thank you very much. All right. My only comment is to wish bon voyage to our colleague Commissioner Cho who leaves tomorrow for Belem, Brazil to represent the port and quite honestly be be a part of the sub national party from the United States that's going in spite of the lack of participation by the Trump administration in the UN Annual Environmental Conference. We really do need to carry the torch right now and make sure that the message that environmental work continues in the United States even if it's opposed by the federal government. We are beautifully a
[02:02:18] [02:02:20] [02:02:24] [02:02:25] [02:02:27] [02:02:30] [02:02:31] [02:02:34] [02:02:34] [02:02:42] [02:02:43] [02:02:43] [02:02:48] [02:02:48] [02:02:50] [02:02:51] [02:02:55] [02:02:55] [02:02:57] [02:02:59]	great the the nation owes them a lot. So I deeply appreciate the appreciation for veterans. That's That's it. Thank you very much. All right. My only comment is to wish bon voyage to our colleague Commissioner Cho who leaves tomorrow for Belem, Brazil to represent the port and quite honestly be be a part of the sub national party from the United States that's going in spite of the lack of participation by the Trump administration in the UN Annual Environmental Conference. We really do need to carry the torch right now and make sure that the message that environmental work continues in the United States even if it's opposed by the federal government. We are beautifully a republic and we get to keep doing what
[02:02:18] [02:02:20] [02:02:24] [02:02:25] [02:02:27] [02:02:30] [02:02:31] [02:02:34] [02:02:34] [02:02:42] [02:02:43] [02:02:43] [02:02:46] [02:02:48] [02:02:50] [02:02:55] [02:02:55] [02:02:55] [02:02:57] [02:02:59] [02:03:01]	great the the nation owes them a lot. So I deeply appreciate the appreciation for veterans. That's That's it. Thank you very much. All right. My only comment is to wish bon voyage to our colleague Commissioner Cho who leaves tomorrow for Belem, Brazil to represent the port and quite honestly be be a part of the sub national party from the United States that's going in spite of the lack of participation by the Trump administration in the UN Annual Environmental Conference. We really do need to carry the torch right now and make sure that the message that environmental work continues in the United States even if it's opposed by the federal government. We are beautifully a republic and we get to keep doing what we think is right even if the federal

#### Transcript of Regular Meeting on Nov 11, 2025 12:00pm

[02:03:18] can do so again. So thank you for [02:03:19] doing that, Sam, I know it's a. That's

[02:03:22] a long trip, but.

[02:03:26] But you're an incredible ambassador

[02:03:28] for the port and for the values that

[02:03:30] we share. So hearing no further

[02:03:32] comments and having no further

[02:03:34] business, if there is no objection, we

[02:03:36] are adjourned at 22 22pM.
